Charts the emerging world awareness of environmental issues. Provides an A-Z glossary of key terms, a comprehensive directory, an extensive bibliography, detailed maps and a Who's Who.

The Lyons Press is proud to present the forty-fifth annual edition of the National Wildlife Federation's "Conservation Directory" of U.S. and international organizations and agencies working to protect the environment -- the most vital resource of its kind. Included are: members of the United States Congress; government agencies; citizens' groups; educational institutions; databases, services, periodicals, and other directories; federally protected conservation areas; indexes; and more. This annual directory is essential for colleges and universities, libraries, environmental activists, students, outdoor writers, science editors, natural-resource agencies, those seeking employment in the field of conservation, researchers, and all individuals interested in wildlife and ecology.

The solar-terrestrial environment is monitored by a wide variety of scientific sensors located throughout the world and on space platforms. This second edition of the Directory of Solar-Terrestrial Physics Monitoring Stations presents detailed information for 1163 sensors used to monitor this environment. The scientific disciplines covered are solar and interplanetary phenomena, ionospheric phenomena, flare-associated events, geomagnetic variations, aurora, cosmic rays, airglow, and miscellaneous related phenomena such as atmospheric ozone. The following summary station tables are also given: master station list, alternate name list, listing by subdiscipline, and a list of stations closed since the first directory was published in 1977. In addition, a status report summarizes the relative decrease in solar-terrestrial physics monitoring activities since 1976. Keywords: Solar-terrestrial physics; Solar phenomena; Solar activity; Cosmic rays; Aurora; Geomagnetic activity; Ionospheric phenomena; Solar-terrestrial data; Solar-terrestrial monitoring; Interplanetary phenomena; Solar flares; and Airglow.

Now in its 29th edition, the Europa International Foundation Directory 2020 provides an unparalleled guide to the foundations, trusts, charitable and grantmaking NGOs, and other similar not-for-profit organizations of the world. It provides a comprehensive picture of third sector activity on a global scale. Users will find names and contact details for some 2,690 institutions worldwide. This new edition has been revised and expanded to include the most comprehensive and up-to-date information on this growing sector. Indexes allow the reader to find organizations by area of activity (including conservation and the environment, science and technology, education and social welfare) and geographical region of operations (e.g. South America, Central America and the Caribbean, Australasia, Western Europe and North America). Contents include: A comprehensive directory section organized by country or territory; Details of co-ordinating bodies, and of foundations, trusts and non-profit organizations; A full index of organizations, and indexes by main activity and by geographical area of activity.
