Benita: An African Romance (alternatively titled The Spirit of Bambatse) is a novel by H. Rider Haggard.

This comprehensive code comprises all building, plumbing, mechanical, fuel gas and electrical requirements for one- and two-family dwellings and townhouses up to three stories. The IRC contains many important changes such as: An updated seismic map reflects the most conservative Seismic Design Category (SDC) based on any soil type and a new map reflects less conservative SDCs when Site Class A, B or D is applicable. The townhouse separation provisions now include options for using two separate fire-resistant-rated walls or a common wall. An emergency escape and rescue opening is no longer required in basement sleeping rooms where the dwelling has an automatic fire sprinkler system and the basement has a second means of egress or an emergency escape opening. The exemption for interconnection of smoke alarms in existing areas has been deleted. New girder/header tables have been revised to incorporate the use of #2 Southern Pine in lieu of #1 Southern Pine. New tables address alternative wood stud heights and the required number of full height studs in high wind areas.

Iconoclasts have that knack for overturning conventional wisdom and achieving the apparently impossible. Though crucial to the success of an organisation, true iconoclasts are few and far between. This text explores what makes these great innovators tick and offers tools to unleash our own potential.

This text presents extended separation, comparison, and oscillation theorems that replace classical analysis. Its analysis of related quadratic functionals shows how critical extremals can substitute for minimizing extremals. 1973 edition.

Popular Poultry Breeds examines forty mainstream breeds of chickens and bantams divided into thirty-five chapters. Most breeds exist in several plumage colour varieties, and in large and bantam (miniature) size versions, all of which are also included in this comprehensive book. Detailed histories of each breed are given, in many cases including the names of the breeders and where they lived. Also, the special management and selective breeding requirements needed for certain breeds is studied, even if they are not going to be entered into shows. The book includes helpful descriptions of the breeds, and is beautifully illustrated in full colour with over 180 photographs of prize-winning birds and nearly ninety reproductions of exquisite old prints of artist's drawings. This painstakingly researched reference work is aimed at smallholders, hobbyist poultry keepers, serious enthusiasts and those researching chicken breeds.
