Features an audio read-along! With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark -- and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. Reynolds's delicate fable about the creative spirit in all of us.

Cassidy explains how these forces combined to produce the buying hysteria that drove the prices of loss-making

companies into the stratosphere. Much has been made of Alan Greenspan's phrase irrational exuberance, but Cassidy shows that there was nothing irrational about what happened. The people involved - fund managers, stock analysts, journalists and pundits - were simply acting in their own self-interest.

It takes a look at some of the most important applications that have appeared on the Internet, the mobile revolution, and ends with a discussion of future key developments in the telecommunications industry.

traderstriving to get rich on the Nasdaq and goateed twenty-five-year-olds playing wannabe Bill Gates. It was also about an America that believed it had discovered the secret of eternal prosperity: it said something about all of us, and what we thought about ourselves, as the twenty-first century dawned. John Cassidy's Dot.con brings this tumultuous episode to life. Moving from the Cold War Pentagon to Silicon Valley to Wall Street and into the homes of millions of Americans, Cassidy tells the story of the great boom and bust in an authoritative and entertaining narrative. Featuring all the iconic figures of the Internet era -- Marc Andreessen, Jeff Bezos, Steve Case, Alan Greenspan, and many others -- and with a new Afterword on the aftermath of the bust, Dot.con is a panoramic and stirring account of human greed and gullibility.

Features an audio read-along! A creative spirit learns that thinking "ish-ly" is far more wonderful than "getting it right" in this gentle new fable from the creator of the award-winning picture book *The Dot*. Ramon loved to draw. Anytime. Anything. Anywhere. Drawing is what Ramon does. It's what makes him happy. But in one split second, all that changes. A single reckless remark by Ramon's older brother, Leon, turns Ramon's carefree sketches into joyless struggles. Luckily for Ramon, though, his little sister, Marisol, sees the world differently.
