Volume 3 of the Bible Exposition Commentary 6-volume set

No one thinks more clearly than Grant Richison about matters of biblical authority, truth, and certainty. I commend this book to you to stretch your thinking and find a firm anchor for your faith.--Dr. Erwin W. Lutzer, Senior Pastor, The Moody Church.

According to the authors, the doctrine of inerrancy has been standard, accepted teaching for more than 1,000 years. In 1978, the famous "Chicago Statement" on inerrancy was adopted by the Evangelical Theological Society, and for decades it has been the accepted conservative evangelical doctrine of the Scriptures. However, in recent years, some prominent evangelical authors have challenged this statement in their writings. Now eminent apologist and bestselling author Norman L. Geisler, who was one of the original drafters of the "Chicago Statement," and his coauthor, William C. Roach, present a defense of the traditional understanding of inerrancy for a new generation of Christians who are being assaulted with challenges to the nature of God, truth, and language. Pastors, students, and armchair theologians will appreciate this clear, reasoned response to the current crisis.

Two centuries before Christ, the Greek mathematician and inventor Archimedes experimented with the lever. He declared that he could "move the earth" if he had a place to stand somewhere in the cosmos. People need a certain place to stand, a point of reference beyond the self. In this bold critique of the emergent church of postevangelicals, Dr. Grant Richison, well-known Bible expositor (versebyversecommentary.com), draws a line in the sand to prevent further erosion of the certainty that we can stand on the absolute truth of the Bible. In his rejection of relativism, he lights the way for those who would present the gospel with certainty and clarity.

Dr. Norman L. Geisler has been called the "father of evangelical Christian philosophy." He has written more than one hundred books and taught at universities and top seminaries for some fifty-six years. He was the first president of the Evangelical Philosophical Society and the founder and first president of the International Society of Christian Apologetics. He has spoken or debated in more than two dozen countries and held pastoral/pulpit ministries in four states. Many view him as a cross between Thomas Aquinas and Billy Graham. No one has done more to communicate the modern challenges of the Faith

to the "average" Christian, to the church, and to the academy. This volume offers creative and constructive essays from twenty-three contributors, all notable in their own right, who preserve and propagate Dr. Geisler's ideas and express appreciation for his influence. Those who know him best say he is "true, faithful, and blessed by God!"

Many people are dissatisfied with their looks: where this mushrooms into clinical obsession ("e;Body Dysmorphic Disorder"e;), this can have wide-ranging life consequences which require diagnosis and treatment. Using a combination of verse, prose and illustration, the author conveys her feelings and conclusions about her decades-long journey of healing from a mental disorder. The Biblical image of the olive tree and its grafts is her inspiration, as she follows a two-phase journey of healing: 1) The faith step: following her father into a mental hospital she finds the key to survival, so closing the door on suicide. 2) The step of insight: working with her therapist through partial diagnoses to uncover the core disorder and receive healing through a symbol of grace.

The original eight volumes now complete and unabridged in four! "Though scholarly in the true sense of the word, this work can also be read and understood by those not formally trained in theology."
