An illustrated adaptation of the long-running bestseller *How Full Is Your Bucket?* (more than 400,000 copies sold) for kids — told through the story of a boy who learns a valuable “bucket filling” metaphor and watches it come to life as the day unfolds. Every moment matters. Each of us has an invisible bucket. When our bucket is full, we feel great. When it’s empty, we feel awful. Yet most children (and many adults) don’t realize the importance of having a full bucket throughout the day. In *How Full Is Your Bucket? For Kids*, Felix begins to see how every interaction in a day either fills or empties his bucket. Felix then realizes that everything he says or does to other people fills or empties their buckets as well. Follow along with Felix as he learns how easy it can be to fill the buckets of his classmates, teachers and family members. Before the day is over, you’ll see how Felix learns to be a great bucket filler, and in the process, discovers that filling someone else’s bucket also fills his own.

If you agree that physical education should be fun, instructive, and a place where students acquire physical and life skills, then you'll love PE2theMax: Maximize Skills, Participation, Teamwork, and Fun. J.D. Hughes, author of the popular *No Standing Around in My Gym*, has created 30 never-been-done-before games, tried and tested in the gymnasiums and on the fields and courts of Villa Rica, Georgia, where he teaches elementary school. These games are designed for large groups--anywhere from 30 to 75 students--but can be scaled back easily for smaller class sizes. Each game provides students of all athletic abilities the opportunity to have fun, be active, and acquire movement and sport skills. [...] The games in PE2theMax are student centered, not teacher centered. As such, students are motivated to challenge themselves to succeed. The games are inclusive and developmentally appropriate. They define what a quality PE program and the New PE philosophy are all about: promoting participation and lifelong fitness as well as self-esteem and initiative. Most important, from the kids' perspective, "these games rock." --Publisher description.

This award-winning book uses the letters of the alphabet to help young and old see the many, simple ways that they can fill buckets and fill their own buckets in return. When you help children become bucket fillers, you give them the key to happiness... for it is in friendship, love, and good will to others that we are truly happy. Bucket filling is easy, as easy as can be. You can fill a bucket all the way from A to Z. Yes, bucket filling is the moment by moment choice to be kind and caring. Teaching and encouraging children to be bucket fillers is one of the greatest gifts you can give to them. Winner of 31 awards and 3 additional honors.
