Here is a book packed with good advice on how to find and maintain a Desmoquattro twin Ducati. From running costs, through paperwork, vital statistics, valuation – Ducati Desmoquattro Twins shows you exactly what to look for when examining a potential Ducati Desmoquattro purchase. Along with a detailed description of all the individual models, there is a comprehensive condition checklist and guide, plus photos of key areas to check and foibles to be aware of. Also includes info on key specifications and useful upgrades that will enable one of these classic machines to be used on a regular basis, and a guide to the market and value – everything you need to buy the Desmoquattro of your dreams. Ian Falloon has 40 years of experience with Ducati, and has written several books covering the Desmoquattro models. He has owned several examples of this bike, and in his role as a motorcycle journalist attended the press launches for many of the models covered in this book. Ian’s close association with the factory, and personal association with many of the engineers involved, has given him an invaluable insight into the Desmoquattros’ development.

To save her West Texas home, a young widow must join forces with a violent desperado—and tame the wild passions he ignites within her: “A superb writer” (RT Book Reviews), Ellie Langstrom has built a quiet, simple life on a ranch in Summer Valley, married to the love of her life: gentle, older Benjamin Jarrett. But that life is shattered when her barn burn to the ground and she finds Benjamin’s bullet-riddled body on the back doorstep. Reeling from shock and grief, Ellie has no idea who would want to hurt him or why. So she telegraphs Benjamin’s brother Carson, a Texas Ranger, for help. Two months later, a Jarrett brother finally arrives—only it’s not Carson, but the blue-eyed gunfighter, Kale Jarrett. Ellie is terrified of guns and of the handsome gunslinger now living in her house. But she needs him . . . maybe in ways she doesn't want to admit. “The real treasure of Sweet Autumn Surrender is the love Ellie Jarrett has to give to Kale and his family.” —The Book Shelf

The Great Ride of China is the story of Buck Perley and Amy Mathieson's 21,000-mile, record-breaking trip around one of the world's oldest and most diverse countries. Follow them on a journey that takes them through grass plains, sand storms, 20-mile traffic jams in the center of coal country, and to the Rooftop of the World in the Himalayas.

This book presents a selection of papers on advanced technologies for 3D printing and additive manufacturing, and demonstrates how these technologies have changed the face of direct, digital technologies for the rapid production of models, prototypes and patterns. Because of their wide range of applications, 3D printing and additive manufacturing technologies have sparked a powerful new industrial revolution in the field of manufacturing. The evolution of 3D printing and additive manufacturing technologies has changed design, engineering and manufacturing processes across such diverse industries as consumer products, aerospace, medical devices and automotive engineering. This book will help designers, R&D personnel, and practicing engineers grasp the latest developments in the field of 3D Printing and Additive Manufacturing.

-A monograph on a leading voice of interior design: Laura Bohn, 'Queen of soft-modern' -The foreword is by Cindy Allen, the editor in chief of Interior Design magazine -Laura Bohn's set designs for the Year of the Dragon movie and Nurse Jackie (television show) are included in the book Introducing Laura Bohn, Ways of Seeing, the first monograph examining the career of this New York designer, Laura Bohn. Bohn uses her signature elements, unusual materials, and a distinctive color palette to create interiors that are both livable and softly modern. She will often set unexpected hues and shapes together to give her rooms a depth and richness, which is not easily replicated. Bohn is the founder and principal of Laura Bohn Design Associates, a New York-based international interior design firm. She is also the co-founder of The Designers Collaborative, a support group for top designers, as well as being a member of ASID and Decorators' Club. She serves as a visiting critic at local design schools, and has taught at the Fashion Institute of Technology, Parsons School of Design, and the Pratt Institute. Bohn's ability to forecast current design trends and interpret client's needs has made Laura Bohn a New York design authority.

Modern Mandarin Chinese Grammar Workbook is a book of exercises and language tasks for all learners of Mandarin Chinese. Divided into two sections, the Workbook initially provides exercises based on essential grammatical structures, and moves on to practice everyday functions such as making introductions, apologizing and expressing needs. With an extensive answer key at the back to enable students to check on their progress, main features include: exercises at various levels of challenge for a broad range of learners cross-referencing to the related Modern Mandarin Chinese Grammar a comprehensive index to exercises alphabetically arranged in terms of structures, functions, and key Chinese structure vocabulary. This second edition also offers a revised and expanded selection of exercises including new task-based exercises. Modern Mandarin Chinese Grammar Workbook is ideal for all learners of Mandarin Chinese, from beginner to intermediate and advanced students. It can be used both independently and alongside the Modern Mandarin Chinese Grammar (978-0-415-82714-0), which is also published by Routledge.

What a Rancher Wants Nothing's come easy to rancher Chance McDaniel since his best friend betrayed him, until the deception explodes into a Texas-sized scandal and his best friend's sister, Gabriella del Toro, appears to pick up the pieces. Now Chance's luck is about to change and seduction has become his top priority... Back in Her Husband's Bed It's been three years since Annie Baracas left her husband, Vegas casino owner Nathan Reed, and he still hasn't signed the divorce papers. So when Nate finally offers to set her free, Annie will agree to any terms. All she has to do is play the happy wife...and not fall in love with her husband.

A step-by-step guide to building an electric motorcycle from the ground up Written by alternative fuel expert Carl Vogel, this hands-on guide gives you the latest technical information and easy-to-follow instructions for building a two-wheeled electric vehicle--from a streamlined scooter to a full-sized motorcycle. Build Your Own Electric Motorcycle puts you in hog heaven when it comes to hitting the road on a reliable, economical, and environmentally friendly bike. Inside, you'll find complete details on every component, including motor, batteries, and frame. The book covers electric motorcycles currently on themarket and explains how to convert an existing vehicle. Pictures, diagrams, charts, and graphs illustrate each step along the way. Whether you want to get around town on a sleek ride or cruise the super slab on a tricked-out chopper, this is the book for you. Build Your Own Electric Motorcycle covers: Energy savings and environmental benefits Rake, trail, and fork angle Frame and design Batteries and chargers DC and AC motor types Motor controllers Accessories and converters Electrical system and wiring Conversion process Safety, maintenance, and troubleshooting

This book is a collection of multidisciplinary papers presented at the Department of Physics of Milan University's congress on 28 and 29 June 2017, which was also intended as a kick-off meeting for the design of a novel science campus at the Expo site in Milan. The congress presented a snapshot of the department's research to the academic community, the media, policymakers and authorities as well as the public at large, and also provided an opportunity to strengthen interdisciplinary collaborations between the members of the department and other communities. This book is a valuable resource for scientists looking for synergetic projects, policymakers wanting to grasp scientists' points of view and for prospective graduate students

seeking expanding areas of research.

This book presents a comprehensive survey about the most recent developments in industrial applications, processing techniques and modifications of polymers from marine sources. It systematically introduces the reader to the biomaterials Chitin, Collagen, Alginates, Cellulose and Polyesters and links their interwoven industrial significance and environmental implications. The book elucidates the impact of industrial sourcing of the aquatic system for organic and inorganic matter on the environment and deepens the understanding of the industrial and economic significance of aquatic biopolymers. Further it addresses the question of how to balance the conservation of aquatic life and the industrial and economic interest in developing biodegradable alternatives for plastic. Thus the book will appeal to scientists in the field of chemistry, materials and polymer science as well as engineering.
