Part of Moorjani's post-near-death experience "has involved contemplating the cultural myths infused into our everyday lives. Passed down from generation to generation, these myths are pervasive and influential. From the belief we reap what

we sow to the idea we must always be positive, cultural myths are often accepted as truths without questioning. Moorjani asserts it is now time for questioning in order to help us reach our fully informed, authentic selves ... By freeing ourselves from these ubiquitous expectations, we can break open an honest pathway to life as it was meant to be lived"--

The New York Times bestselling author of *Dying to Be Me* returns with "a gorgeous and powerful field guide to the empath living in today's wild world" (Laura Berman, PhD, author of *Quantum Love*) and how they can fully embrace their gifts of intuition and empathy. Empaths not only sense other people's emotions, but also absorb them—sometimes to their own disadvantage, often leading to overwhelming sensory overload and feelings of confusion or low self-esteem. Their willingness to help and please others might make them prey to opportunists or cause them to give away more energy than they can afford. But Anita Moorjani argues that it's possible to turn this onslaught of emotional burden into a powerful tool. In a time when traits like sensitivity, kindness, and compassion are sorely undervalued, Moorjani helps empaths—whether emerging or acknowledged—navigate obstacles they may face and identify what makes them unique. She teaches them how to claim their true powers as empaths and to be their most authentic selves. "Sensitive is the New Strong is a book that provides you with groundbreaking information, tools, and exercises in understanding the challenges faced by empaths. You can learn how to protect your energy and thrive. A definite must-read for empaths and their loved ones" (Nick Ortner, New York Times bestselling author).

Dr Rajiv Parti was the last man to believe in heaven or hell - until he saw them with his own eyes. Dr Parti was a wealthy man of science with a successful career as the Chief of Anesthesiology at the Bakersfield Heart Hospital in California. He demanded the same success from his son, whose failures provoked episodes of physical abuse from Dr Parti. However, his fate was overturned in 2005, when he was diagnosed with cancer. During his seventh operation against the disease, dying from sepsis with a 105 degree fever, Dr Parti left his body and watched his own operation from the ceiling. What followed was a profound near-death experience, in which Dr Parti was met by archangels and his deceased father, who led him to witness both heaven and hell. From the angels, he learned lessons of spiritual health that they insisted he bring down to earth - to do so, Dr Parti knew he had to change his ways. After his near-death experience, Dr Parti awoke a new man. He gave away his mansion, quit his career, opened a wellness clinic and completely turned around his relationships with his family. In this remarkable true story of spiritual transformation, Dr Parti provides rare details of heaven, hell, the afterlife and angels. In sharing the lessons and eternal truths from the Divine that changed him forever, Dr Parti offers his audience the opportunity to attain peace and live a better life here on Earth.
