p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.1px Verdana} Novela del inglés Oscar Wilde (1854 - 1900). Publicada en 1890, esta novela filosófica fue víctima de la censura de la época por “ indecente ” y con el paso del tiempo se hizo un lugar entre las obras más reconocidas de la literatura inglesa. Versión decadente del Fausto de Goethe, es una crónica profunda y puntual de la época victoriana con descarnado realismo simbólico y de estilo gótico.

Todo el Renacimiento gira obsesivamente en torno a la búsqueda de lo específicamente humano. Una indagación sobre el hombre, su pensamiento, su sentido, su propia materialidad. Por ello el retrato -y no sólo lo que estrictamente se entiende por tal, sino también los cientos de representaciones humanas que figuran en los frescos y en las grandes pinturas religiosas-, ocupa un lugar central en las preocupaciones de sus artistas, orfebres, pintores y escultores A través del estudio ya clásico de John Pope-Hennessy podemos descubrir algunas de las claves de lo que fue aquel nuevo humanismo renacentista, un nuevo mundo, una nueva visión.

Through oral interviews, analyses of museums, newly reconfigured "Jewish quarters, excavated Jewish sites, popular festivals, tourist brochures, literature and art, The Memory Work of Jewish Spain explores what happens when these initiatives are implemented at the local level in cities and towns throughout Spain, and how they affect Spain's present.

The only up-to-date frequency dictionary of Spanish currently available, this is an invaluable tool for all learners of Spanish that provides a list of the 5,000 most commonly used words in the language. Based on a twenty million word corpus evenly divided between spoken, fiction and non-fiction texts from both Spain and Latin America, the Dictionary provides a detailed frequency-based list, as well as alphabetical and part-of-speech indexes to ensure maximum ease of access to the information and efficiency of use. All entries in the rank frequency list feature the English equivalent, a sample sentence and, where applicable, an indication of major register variation. The Dictionary also contains thirty thematically organized lists of frequently used words on a variety of topics, such as animals, weather, materials, and family terms. A CD version is available to purchase separately. Designed for use by corpus and computational linguists it provides the full text in a format that researchers can process and turn into suitable lists for their own research work

Millennial Cervantes explores some of the most important recent trends in Cervantes scholarship in the twenty-first century. It brings together leading

Online Library El Retrato The Portrait Como Djar Rostros Y Figuras How To Draw Faces

Cervantes scholars of the United States in order to showcase their cutting-edge work within a cultural studies frame that encompasses everything from ekphrasis to philosophy, from sexuality to Cold War political satire, and from the culinary arts to the digital humanities. Millennial Cervantes is divided into three sets of essays—conceptually organized around thematic and methodological lines that move outward in a series of concentric circles. The first group, focused on the concept of “Cervantes in his original contexts,” features essays that bring new insights to these texts within the primary context of early modern Iberian culture. The second group, focused on the concept of “Cervantes in comparative contexts,” features essays that examine Cervantes’ works in conjunction with those of the English-speaking world, both seventeenth- and twentieth-century. The third group, focused on the concept of “Cervantes in wider cultural contexts,” examines Cervantes’ works—principally *Don Quixote*—as points of departure for other cultural products and wider intellectual debates. This collection articulates the state of Cervantes studies in the first two decades of the new millennium as we move further into a century that promises both unimagined technological advances and the concomitant cultural changes that will naturally adhere to this new technology, whatever it may be.

This book provides ten case studies in Functional Discourse Grammar (FDG), a typologically-oriented theory of the organization of natural languages that has risen to prominence in recent years. The authors, all committed practitioners of FDG, include Kees Hengeveld, the intellectual father of the theory, who

Online Library El Retrato The Portrait Como Djar Rostros Y Figuras How To Draw Faces

shows how it offers a radically new approach to constituent ordering. Other themes covered are evidentiality, modality, adpositions, verb morphology, possession, raising, sequence of tenses, semi-fixed constructions and prelinguistic conceptualization. The volume contains an introduction that explains the rudiments of FDG and summarizes the ten remaining chapters. The Casebook moves on from Hengeveld & Mackenzie ' s (2008) Functional Discourse Grammar to show how the theory is applied to linguistic problems new and old. The languages treated are Blackfoot, Dutch, English, Spanish, Welsh, indigenous languages of Brazil, and many others.

"Examines theater and portraiture as interrelated social practices in seventeenth-century Spain. Features visual images and cross-disciplinary readings of selected plays that employ the motif of the painted portrait to key dramatic and symbolic effect"--Provided by publisher.
