Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Just the FACTS101 provides the essentials of the textbook&#58; all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Facts101....

Studyguide for Elementary Algebra: Concepts & Applications ...

Elementary and Intermediate Algebra, Concepts and Applications Facts101 is your complete guide to Elementary and Intermediate Algebra, Concepts and Applications. In this book, you will learn topics such as Introduction to Graphing, Polynomials, Polynomials and Factoring, and Rational Expressions and Equations plus much more.

For courses in Beginning Algebra. Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today's student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. This requires the development of critical-thinking skills: to reason mathematically, to communicate mathematically, and to identify and solve mathematical problems. The new editions support students with a tightly integrated MyLab(tm) Math course; a strong focus on problem-solving, applications, and concepts, and the robust MyMathGuide workbook and objective-based video program. In addition, new material - developed as a result of the authors' experience in the classroom, as well as from insights from faculty and students - includes more systematic review and preparation for practice, as well as stronger focus on real-world applications. Also available with MyLab Math. MyLab(tm) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. Note: You are purchasing a standalone product; MyLab does not come packaged with this content. Students, if interested in purchasing this title with MyLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab, search for: 0134772385 /
