**Elf Warfare Open Book**

Although few in number, elves produce the most skillful and deadly warriors of all the races. Renowned for their archery and agility, they are mostly associated with hit and run tactics; however, they should not be underestimated in open battle. This book compiles all of the information known about these elegant warriors and how they practise war. From an initial examination of the fighting methods of the individual elf fighter, it expands to look at how they do battle in small companies and vast armies. It covers all of their troop types from their justifiably famous bowmen and swordmasters to their lightning fast cavalry, making note of regional variations and highly specialized fighters such as war mages. Accompanied by numerous illustrations in both colour and black and white, this book examines specific battles in great detail in order to fully demonstrate the elf way of war.

Despite their short stature, dwarves are amongst the fiercest and most feared fighters of all the races. Thanks to their great strength and stamina, Dwarves march to battle in thick armor and carrying numerous heavy weapons. This book compiles all of the information known about these grim warriors and how they wage war. From an initial examination of the fighting methods of the individual dwarf soldier, it expands to look at how they do battle in small companies and vast armies. It covers all of their troop types from the axemen that form the front lines of battle to their deadly accurate crossbowmen, and noting their specialist troops such as their famous siege-engineers. Also examined are their tactics in specific situations such as underground fighting and combat in mountainous terrain. Finally, the book examines a few specific battles in great detail in order to fully demonstrate the dwarven way of war.

Despite their constant infighting and backstabbing, orc horde armies remain a dire threat to all races. To them, war is life. Beginning with an examination of the fighting methods of the individual orc warrior, the book expands to look at how they do battle in their small warbands and in vast armies. Using vivid illustrations, it reveals the tactics, strategies, and technology of all the orc troop types, from lightly armed archers and heavily armored shock troops to their wolf cavalry and siege engines. Finally, it explores specific key battles to develop the fullest possible understanding of these loathsome, terrifying creatures and the ways in which they wage war.

To defeat your enemy, you must understand him. This volume offers an analysis of the most loathsome and fearsome foe of the living—the undead. Created from corpses and trapped souls, the undead are anathema to all life. Beginning with an examination of the wide variety of undead types—both corporeal creatures such as zombies, skeletons, and ghouls, and ethereal forms such as wraiths, wights, and ghosts—this book explores how these types do battle individually, in small warbands, and in vast armies. It also covers the powerful undead types such as vampires and liches that often lead these armies, exploring their strengths, their motivations, and the horrible death magic that they can bring to the battlefield. Presented with a wide variety of illustrations, this book is an indispensable guide to taking on the forces of unlife.

On steamy Pryan, never-ending sunlight and plentiful rain have created a jungle so vast that humans and elves dwell high in the trees and only dwarves live anywhere near the ground. From the treetops the aristocratic elves sell weapons to the other races, whose incessant warfare sends a steady steam of profits and essential resources skyward. Now, generations of dissent and race hatred will not heal -- not even under the threat of annihilation at the hands of legendary Titans. Armed with little more than their wits and prophecy, an elf, a human, and a dwarf must unite to try to save the world from destruction.

Arana Telani, a Druid of the Clan of the Flame Spiders, has lived in the Forest of Rovano all her life. For most of that life, she has been the guardian of the elven capitol known as Quallilari. However, the queen of the elves has commanded she leave her beloved home and lead an expedition to the Southern Jungle. She, along with one thousand of her people, must blaze a trail through a vast, dangerous and largely unexplored territory to reach their new home. Throughout the journey Arana must face her own doubts and fears as she leads her people through conflict and the cold shadow of death to their new home. Whisper of Fate is the first book in the Under a Sea of Stars trilogy and the first step along Arana's journey to a destiny she could never have imagined.†

Empires have fallen, and the land is broken. The great ootmarks that once stood as testaments to the allegiances and might of nations have crumbled into ruin. In this lost age, fealty and loyalty are as valuable as gold and as deadly as cold iron, and war is ever-present. Created by Joseph A. McCullough, designer of Frostgrave and Frostgrave: Ghost Archipelago, Oathmark is a mass-battle fantasy wargame that puts you in command of the fantasy army you've always wanted, whether a company of stalwart dwarves or a mixed force with proud elves, noble men, and wild goblins standing shoulder-to-shoulder in the battle-line. Fight through an integrated campaign system and develop your realms from battle to battle, adding new territories, recruiting new troop types, and growing to eclipse your rivals... or lose what you fought so hard to gain and fall as so many would-be emperors before you.
