"This is a program that focuses on all 3 modes of communication (interpersonal, persentational, interpretive) and was designed with the Common Core State Standards (CCSS) in mind."--Amazon/Publisher.

LIAISONS is an innovative beginning-level French program firmly grounded in principles of communicative language teaching and research in second language acquisition. Components of the program are carefully linked together, showing students how they can make connections with their classmates, their instructor, their community, and the French-speaking world. With an engaging mystery film shot on location in Montreal, Quebec, and Paris, the program provides a rich array of communicative activities designed to stimulate interaction inside and outside the classroom. The underlying pedagogical framework in LIAISONS asks students to first discover new vocabulary and grammar through different mediums, then connect form and meaning through a set of confidence-building activities, and finally, actively create language. A reissue of Pam Munoz Ryan's bestselling backlist with a distinctive new author treatment. In this fast-paced, courageous, and inspiring story, readers adventure with Charlotte Parkhurst as she first finds work as a stable hand, becomes a famous stage-coach driver (performing brave feats and outwitting bandits), finds love as a woman but later resumes her identity as a man after the loss of a baby and the tragic death of her husband, and ultimately settles out west on the farm she'd dreamed of having since childhood. It wasn't until after her death that anyone discovered she was a woman.

All old cities have their secrets. Early morning, August 1882. Inspector Aloysius Allaway is awoken and brought into the investigation of a strangely dressed young woman found in King's Chapel Graveyard while one hundred and twenty-eight years later rookie Detective Shiloh Amsel finds a mummified human heart. Two different crimes, connected by Echo Cross, Boston's most closely kept secret. A hidden neighborhood, refuge of fae and supernatural beings, becomes the center of a conspiracy linking both detectives to a dark world of cults, conspiracy, and curious rifts in time.

An account of the different ways in which things have become cognitive extensions of the human body, from prehistory to the present.
