The National Science Education Standards

*Page 16/21*

# Online Library Essment File Unit

## Benchmark Test 6

address not only what students should learn about science but also how their learning should be assessed. How do we know what they know? This accompanying volume to the Standards focuses on a key kind of assessment: the evaluation that occurs regularly in the classroom, by the teacher and his or her students as interacting participants. As students conduct experiments, for example, the teacher circulates around the room and asks individuals about their findings, using the feedback to adjust lessons plans and take other actions to boost learning. Focusing on

### Benchmark Test 6

the teacher as the primary player in assessment, the book offers assessment guidelines and explores how they can be adapted to the individual classroom. It features examples, definitions, illustrative vignettes, and practical suggestions to help teachers obtain the greatest benefit from this daily evaluation and tailoring process. The volume discusses how classroom assessment differs from conventional testing and grading—and how it fits into the larger, comprehensive assessment system.

Now that the No Child Left Behind Act has

# Online Library Essment File Unit

## Benchmark Test 6

left its mark on public education, educators across the United States are all the more invested in preparing their students for state and national assessments. In *Tests That Teach: Using Standardized Tests to Improve Instruction*, Karen Tankersley guides you with proven tips and instructional strategies to help your students perform to their potential. Covering all core contents areas—language arts, social studies, math, and science—and respecting all levels of student performance, Tankersley \*Examines the various types of questions that routinely appear on these assessments; \*Provides sample

# Online Library Essment File Unit

## Benchmark Test 6

multiple-choice and constructed-response questions from the tests; \*Offers guidelines on how to create daily lessons that encourage students to practice the skills and demonstrate the knowledge they'll need to use on the high-stakes tests; \*Suggests word lists, games, discussion topics, and testing ideas for your classroom; and \*Describes how school staff can create a learning community that fosters collaboration among teachers and high performance in students. Also included are a wealth of online resources for lesson plans, daily classroom activities, and virtual field trips, as well as links to

## Benchmark Test 6

every state's released materials on its own assessment. As Tankersley explains, teaching students the skills they need to do well on constructed-response tests will better prepare students both to score well on state and national assessments and to take their place as thoughtful and organized thinkers in a rapidly changing, competitive society.
