A Christmas Carol in Prose, Being a Ghost Story of Christmas, usually known just as A Christmas Carol is a fairy-tale novel by a British classic Charles Dickens, that was published in 1843. It consists of five chapters, or staves as the author named them. Among all the stories from Christmas Books by Dickens this one became the most popular story about Christmas in Great Britain and outside the country. The main character is an old gloomy miser Ebenezer Scrooge, who doesn't love anyone or anything except his money. He doesn't understand why everybody is so happy about Christmas and with disgust, refuses the invitation from his kind nephew to celebrate this holiday together with his family. On Christmas Eve, the ghost of his former business partner Jacob Marley appeared in front of Scrooge, and it changed him drastically...

On Sunday April 27, 2003, 27-year old Aron Ralston set off for a day's hiking in the Utah canyons. Dressed in a t-shirt and shorts, Ralston, a seasoned climber, figured he'd hike for a few hours and then head off to work. 40 miles from the nearest paved road, he found

himself on top of an 800-pound boulder. As he slid down and off of the boulder it shifted, trapping his right hand against the canyon wall. No one knew where he was; he had little water; he wasn't dressed correctly; and the boulder wasn't going anywhere. He remained trapped for five days in the canyon: hypothermic at night, dehydrated and hallucinating by day. Finally, he faced the most terrible decision of his life: bracing the bones in his wrist by snapping them against the boulder, he hacked through the skin, and finally succeeded in amputating his right hand and wrist. The ordeal, however, was only beginning. He still faced a 60-foot rappell to freedom, and a walk of several hours back to his car - along the way, he miraculously met a family of hikers, and with his arms tourniqued, and blood-loss almost critical, they heard above them the whir of helicopter blades; just in time, Aron was rescued and rushed to hospital. Since that day, Aron has had a remarkable recovery. He is back out on the mountains, with an artificial limb; he speaks to select groups on his ordeal and rescue; and amazingly, he is upbeat, positive, and an inspiration to all who meet him. This is the account of those five days, of the years that led up to them, and where he goes from here. It is narrative non-fiction at its most compelling.

giving birth to her. They discriminate against her and make her feel unwanted yet she yearns and continuously strives for her parents' love. Her stepmother is vindictive and cruel and her father dismissive. Jung-ling grows up to be an academic child, with a natural ability for writing. Only her aunt and grandfather offer her any love and kindness. The story is of survival in the light of the mental and physical cruelty of her stepmother and the disloyalty of her siblings. Jung-ling blossoms in spite of everything and the story ends as her father agrees to let her study in England. A Puffin Modern Classic edition of this bestselling autobiography, celebrating ten years of publication.
