From Hell, Hull and Halifax, May The Good Lord Deliver Us. The famous line originates in the Beggars' Litany, an old saying popular in the 17th century. It is best-known from a poem by John Taylor, who visited Hull in 1622 and wrote a description of the town in verse. However, it may already have been well known in Taylor's time.

Hell's Kitchen is among Manhattan's most storied and studied neighborhoods. A working-class district situated next to the West Side's middle- and upper-class residential districts, it has long attracted the focus of artists and urban planners, writers and reformers. Now, Joseph Varga takes us on a tour of Hell's Kitchen with an eye toward what we usually take for granted: space, and, particularly, how urban spaces are produced, controlled, and contested by different class and political forces. Varga examines events and locations in a crucial period in the formation of the Hell's Kitchen neighborhood, the Progressive Era, and describes how reformers sought to shape the behavior and experiences of its inhabitants by manipulating the built environment. But those inhabitants had plans of their own, and thus ensued a struggle over the very spaces—public and private, commercial and personal—in which they lived. Varga insightfully considers the interactions between human actors, the built environment, and the natural landscape, and suggests how the production of and struggle over space influence what we think and how we live. In the process, he raises incisive questions about the meaning of community, citizenship, and democracy itself.

A Nephilim, a demon and a mage walk into a psychiatric hospital. This isn't a joke. There's no punch line. My name is Alessia Hastings. Welcome to my personal hell. My weekly visit to Nanna's psychiatric hospital ends with me in a celestial jail cell. Now an impossibly gorgeous Nephilim with a face I want to kiss, and an attitude I want to punch, tells me I'm not quite human. Too bad they can't figure out exactly what I am. Only that my magic is dangerous. Which means I've earned a one way invitation to Bloodline Academy: A secret magical school that teaches the next generation of supernatural monsters how to go bump in the night. You'd think the resident Fae mean girls, the shifters, and bloodthirsty vamps would be my biggest problem at the Academy. But it's the strange voices in my mind that truly scare me. Because Hastings women have always heard voices, and the ones in my head are telling me there's something worse out there hunting me. Finishing this semester alive is going to be treacherous. Not making it through could mean the end of the world. No pressure, right? Bloodline Academy is the first book in this Australian Young Adult Urban Fantasy series. Filled with pulse-pounding action, snarky dialogue and slow burn romance. Think Buffy meets Shadowspell Academy with a side order of Supernatural.

This book demonstrates how city literature addresses questions of possibility. In city literature, ideas of possibility emerge primarily through two perspectives: texts may focus on what is possible for cities, and they may present the urban environment as a site of possibility for individuals or communities. The volume combines reflections on urban possibility from a range of geographical and cultural contexts—in addition to the English-speaking world, individual chapters analyse possible cities and possible urban lives in Turkey, Israel, Finland, Germany, Russia and Sweden. Moreover, by engaging with issues such as city planning, mass housing, gentrification, informal settlements and translocal identities, the book shows imaginative literature at work outlining what possibility means in cities.

Black Americans, and America as a whole In Jason Mott's *Hell of a Book*, a Black author sets out on a cross-country publicity tour to promote his bestselling novel. That storyline drives *Hell of a Book* and is the scaffolding of something much larger and urgent: since Mott's novel also tells the story of Soot, a young Black boy living in a rural town in the recent past, and The Kid, a possibly imaginary child who appears to the author on his tour. As these characters' stories build and build and converge, they astonish. For while this heartbreaking and magical book entertains and is at once about family, love of parents and children, art and money, it's also about the nation's reckoning with a tragic police shooting playing over and over again on the news. And with what it can mean to be Black in America. Who has been killed? Who is The Kid? Will the author finish his book tour, and what kind of world will he leave behind? Unforgettably told, with characters who burn into your mind and an electrifying plot ideal for book club discussion, *Hell of a Book* is the novel Mott has been writing in his head for the last ten years. And in its final twists it truly becomes its title.

The black ghetto is thought of as a place of urban decay and social disarray. Like the historical ghetto of Venice, it is perceived as a space of confinement, one imposed on black America by whites. It is the home of a marginalized underclass and a sign of the depth of American segregation. Yet while black urban neighborhoods have suffered from institutional racism and economic neglect, they have also been places of refuge and community. In *A Haven and a Hell*, Lance Freeman examines how the ghetto shaped black America and black America shaped the ghetto. Freeman traces the evolving role of predominantly black neighborhoods in northern cities from the late nineteenth century through the present day. At times, the ghetto promised the freedom to build black social institutions and political power. At others, it suppressed and further stigmatized African Americans. Freeman reveals the forces that caused the ghetto's role as haven or hell to wax and wane, spanning the Great Migration, mid-century opportunities, the eruptions of the sixties, the challenges of the seventies and eighties, and present-day issues of mass incarceration, the subprime crisis, and gentrification. Offering timely planning and policy recommendations based in this history, *A Haven and a Hell* provides a powerful new understanding of urban black communities at a time when the future of many inner-city neighborhoods appears uncertain.

Then let's roll over to my house. Harlem. 145th Street. Grab a seat and brace yourself as I show you the kind of pain that street life and so-called success can bring. . . . Nineteen-year-old Candy Raye Montana, an ex-drug runner for the Gabriano crime family and a former foster child, dreams of becoming a hip-hop superstar, if only someone will discover her talents. Someone does. Mega music producer and king thug of Harlem, Junius "Hurricane" Jackson, CEO of the House of Homicide recording studio, cuts a deal and puts Candy on the stage. Suddenly she is a hot new artist on the notorious Homicide Hitz record label. Her career takes off and she blazes the charts, but it's not long before Candy realizes that the man she thought was her knight is nothing more than a cold-blooded nightmare. Caught between the music and the madness, between the dollars and the deals, Candy belongs to Hurricane—body and soul—and must endure his sadistic bedroom desires while keeping his sexual secrets hidden from the world. But Candy has some strong desires of her own that simply cannot be denied, especially when she finds herself turned on by a brilliant investment baller who just happens to be Hurricane's right-hand man. Candy longs for her freedom, but if Hurricane gets wind of her betrayal the blowback will be lethal—and not only will she risk losing her recording contract, she just might lose her life.
