stop dithering about where to go to college—with fall term only weeks away. Ditched by a friend at a miserable summer farewell party, all he can do is get drunk in the laundry room and regret he was ever born. Until a geeky-cute classmate lifts his spirits, leaving him confident of two things: his sexual orientation, and where he's headed to school. Giles Mulder can't wait to get the hell out of Oak Grove, Minnesota, and off to college, where he plans to play his violin and figure out what he wants to be when he grows up. But when Aaron appears on campus, memories of hometown hazing threaten what he'd hoped would be his haven. As the semester wears on, their attraction crescendos from double-cautious to a rich, swelling chord. But if more than one set of controlling parents have their way, the music of their love could come to a shattering end.

Shy Kelly lands campus Casanova Walter as a roommate, whose bed might as well be equipped with a revolving door. Walter thinks everyone should have as much fun as possible...except his roommate is seriously screwing up his worldview. Love is a crash course. To make the grade, Walter will have to overcome his fear that love was never meant to last.

He’s even less comfortable as the object of a notorious playboy’s affections. Yet all signs seem to indicate this time happiness might be within his grasp. When Baz’s mother runs for a highly sought-after public office, the media hounds drag Baz’s and Elijah’s pasts into the light. In the blinding glare, Baz and Elijah face the ultimate test: discovering if they’re stronger together...or apart.

A man named Jesus, whom is considered the Christ by countless people around the world to this day, lost his life at the hands of barbarians while residing in Canaan, where he devoted his life to making those around him aware they had the potential to become gods. Despite the accumulation of so many technological innovations over the past two millennium that were supposed to ease the daily hardship of people everywhere, so more time could be devoted to pursuits that cultivate the mind, evidence indicates that the size of the Homo-sapien brain, male and female alike, has persistently decreased over this passage of time. The pain, and suffering, endured by Jesus was supposed to serve as a wake up call to the savages in his midst, and the generations to follow, that they had much to learn about what he means to be civilized, as we see amply evidence of to this very day.

Emmet Washington doesn't let anyone define him because of his autism, so when a lobbyist threatens the independent living facility he and his boyfriend call home, he doesn't hesitate to fight. He only hopes his calculations can save the day-and that there isn't a variable his formula failed to foresee.

After all the trials and tribulations Brellea had to endure alone, has she finally found a way to keep her head high and her mind focused on the things that matter? Now facing the
