two of the most popular investment locations, the US and Brazil, looking at the implications of financiers' acquisition of land and control over resources for rural livelihoods and economic justice. At the heart of Fields of Gold is a tension between efforts to transform farmland into a new financial asset class, and land's physical and social properties, which frequently obstruct that transformation. But what makes the book unique among the growing body of work on the global land grab is Fairbairn's interest in those acquiring land, rather than those affected by land acquisitions. Fairbairn's work sheds ethnographic light on the actors and relationships—from Iowa to Manhattan to São Paulo—that have helped to turn land into an attractive financial asset class.

When a daring young pilot lands in her Papa's Oklahoma wheat field, Evangeline Glennon is forever changed by their brief encounter and traces his progress as the world changes, stitching her innermost thoughts and desires into beautiful quilts that narrate the trials and tribulations of life. Original.

making them over into something more romantic than they really were, but then the remembering would be neither so painful, nor so sweet. I suppose you can't have one without the other. . . Evangeline Glennon knows plenty about life's highs and lows. Still, she feels lucky, surrounded as she is by people who care deeply: Papa, who's never lost his Irish brogue or the twinkle in his eye; endlessly practical, generous Mama; and steadfast best friend Ruby. Romance would be too much for a girl like Eva to expect. Then again, love has a tendency to find those who aren't looking for it. . . Out of a clear blue sky, a dashing young aviator makes an impossibly gentle landing in Papa's Oklahoma wheat field. After taking her up in his plane, "Slim" leaves Eva with an exhilarating new perspective--and an even more precious gift that

Now, while tracing from afar the progress of the brave young barnstormer she knew so briefly, Eva stitches her heart and soul into intricate quilts whose images take extraordinary form from the heartbreak and joy of parallel lives. . . From the first Police album, Outlandos D'Amour, through Sacred Love, here are the collected lyrics written by Sting, along with his commentary. Publishing my lyrics separately from their musical accompaniment is something that I've studiously avoided until now. The two, lyrics and music, have always been mutually dependent, in much the same way as a mannequin and a set of clothes are dependent on each other; separate them, and what remains is a naked dummy and a

Nevertheless, the exercise has been an interesting one, seeing perhaps for the first time how successfully the lyrics survive on their own, and inviting the question as to whether song lyrics are in fact poetry or something else entirely. And while I've never seriously described myself as a poet, the book in your hands, devoid as it is of any musical notation, looks suspiciously like a book of poems. So it seems I am entering, with some trepidation, the unadorned realm of the poet. I have set out my compositions in the sequence they were written and provided a little background when I thought it might be illuminating. My wares have neither been sorted nor dressed in clothes that do not belong to them; indeed, they have been shorn of the very garments that gave them their shape in the first place. No

I can't predict the outcome, but I have taken this risk knowingly and, while no one in their right mind should ever attempt to set "The Waste Land" to music, in the hopeful words of T. S. Eliot, These fragments I have shored against my ruins."
