FireX i4618 alarm is a 120-Volt smoke detector hardwired with battery back-up feature. Utilizes ionization technology that may detect fast flaming fires sooner than photoelectric. Install this alarm in your home to provide you and your family an early warning in the event of a fire.

~~Kidde FireX Hardwire Smoke Detector with 9-Volt Battery ...~~

The Kidde i4618 is an AC/DC powered, ionization smoke alarm that operates on a 120V power source with 9V battery backup. This alarm uses ionization sensing technology. Ionization sensing alarms may detect invisible fire particles (associated with flaming fires) sooner than photoelectric alarms.

~~Firex i4618 – Hardwired Smoke Alarm | Kidde Home Safety~~

The meaning of beeps, chirps and blinking lights varies depending on the FireX model. If the unit beeps or chirps once per minute, the battery needs to be replaced or the unit cleaned. If the unit goes off when there isn't a fire, consider relocating it. Proximity to the kitchen and steamy bathrooms is a common cause for false alarms.

The cohost of NPR's On the Media narrates, in cartoon form, two millennia of the influence of the media on the populace, from newspapers in Caesar's Rome to the penny press of the American Revolution to today. 30,000 first printing.

"You see! This is how you die." - Coco Chanel "Shoot straight, you bastards! Don't make a mess of it!" - Breaker Morant "If any of you have a message for the devil, give it to me, for I am about to meet him!" - Lavinia Fisher "I am dying. Please... bring me a toothpick. " - Alfred Jarry Funny, reflective, scornful or delirious, we are fascinated by famous last words because, humanity in extremis, they seem to tell us something about ourselves. Featuring lovers, killers, artists, traitors, spies, rulers, poets and pariahs, this thoughtful volume brings together the hedonists and the fatalists, the pragmatists and the optimists in a collection of famous last utterances - and the stories behind them - from throughout history.

This complete review of gas lift theory and practice focuses on the technical developments over the last 20 years. The reader will learn to design a gas lift installation that ensures the technical and economical optimum production of wells or whole fields alike.

Scandinavians are cooler, sexier, and more stylish than the rest of us. They have a higher standard of living, greater economic opportunity and equality, the world's best restaurants, and moody TV dramas involving murders and sweaters. But did you know, amidst the obsession with hygge, IKEA, and lagom, that Scandinavian sayings are absolutely BIZARRE?! Take the Swedish 'Skita i det blåa skåpet', which roughly translates as 'You've done a poop in the blue locker' ('You've really messed things up now'). Or, in Norway, 'Født bak en brunost': 'He was born behind a brown cheese' (this chap is a bit slow on the uptake). In Denmark you might say instead: 'Han har roterende fis i kasketten' (he's got rotating crap in his cap!). This witty, enlightening book will give you 50 phrases you never knew you needed in your life, explaining their origin and literal translations, with fun color illustrations throughout.

So much of what is commonplace today was once considered impossible, or at least wishful thinking. Laser beams in the operating room, cars with built-in guidance systems, cell phones with email access. There's just no getting around the fact that technology always has, and always will be, very cool. But technology isn't only cool; it's also very smart. That's why one of the hottest technological trends nowadays is the creation of smart homes. At an increasing rate, people are turning their homes into state-of-the-art machines, complete with more switches, sensors, and actuators than you can shake a stick at. Whether you want to equip your home with motion detectors for added security, install computer-controlled lights for optimum convenience, or even mount an in-home web cam or two purely for entertainment, the world is now your oyster. Ah, but like anything highly technical, creating a smart home is typically easier said than done. Thankfully, *Smart Home Hacks* takes the guesswork out of the process. Through a seemingly unending array of valuable tips, tools, and techniques, *Smart Home Hacks* explains in clear detail how to use Mac, Windows, or Linux to achieve the automated home of your dreams. In no time, you'll learn how to turn a loose collection of sensors and switches into a well-automated and well-functioning home no matter what your technical level may be. *Smart Home Hacks* covers a litany of stand-alone and integrated smart home solutions designed to enhance safety, comfort, and convenience in new and existing homes. Kitchens, bedrooms, home offices, living rooms, and even bathrooms are all candidates for smart automation and therefore are all addressed in *Smart Home Hacks*. Intelligently written by engineering guru and George Jetson wannabe, Gordon Meyer, *Smart Home Hacks* leaves no stone unturned. From what to purchase to how to use your remote control, it's the ultimate guide to understanding and implementing complete or partial home automation.

In a quest to find your daughter that will take you through the seedy underbelly of London's Whitechapel district and up into the secret debauched heart of its richest denizens, *You Are Alice in Wonderland's Mum!* allows you to make the choices that will bring your dear daughter home, or lose her to Wonderland forever. Inspired by the game book fad of the 80s *You Are Alice in Wonderland's Mum!* is the gothic visionary 4th entry in the acclaimed Pick-A-Plot series of Choose-Your-Own-Adventure style books.

Presents fifty hacks to customize performance of a Mac, including automating tasks, increasing security, playing Wii games, and modifying wifi.

The fae are increasingly adapting to the urban world. This book teaches you how to develop relationships with them for a lifelong journey of inspiration and magic. *Urban Faery Magick* introduces you to dozens of faeries and offers tips and techniques for interacting with the fae and receiving their blessings and help on your own spiritual path. Author Tara Sanchez explores modern-day case studies of fae encounters associated with each of the elements, as well as her own experiences in working with specific faeries. You will learn about the Zaragoza Goblin, the Santiago Park Pixie, John the Rust Spirit, the Washer at the Ford, Jennie Greenteeth, and many more. You will also explore dozens of exercises for finding and communicating with the fae, including breathwork, trance, chants, invocations, protection, scrying, and interpreting signs as you discover the important lessons the fae can teach us.
