For more than half a century, the NCAA has been one of the most powerful institutions in America, acting to prevent college athletes from receiving any money from their labours while enriching everyone else involved in college sports. In 2000 a few brave individuals took on this cartel, and paved the way for others to do the same. This is the story of a small band of renegades who, against all odds, took on the NCAA, nearly bringing it to its knees, and exposing its tyranny to a new wave of challengers.

This book helps students learn about many types of tables and graphs. Practice includes constructing picture graphs and circle graphs. These pages may be assigned as a class lesson, individual seat work, or homework activities. Answer key is included.

Planned, developed and written by practising classroom teachers with a wide variety of experience in schools, this maths course has been designed to be enjoyable and motivating for pupils and teachers. The course is open and accessible to pupils of all abilities and backgrounds, and is differentiated to provide material which is appropriate for all pupils. It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice. This teacher's file is designed for stage two of Year 9.
