Marx Brothers, Zach Savich's first book does more than showcase the innovative fluency of its roving forms and moods: these poetic hybrids are not hothouse blossoms but minotaurs. With ebullient intelligence and high-stakes insistence on the panic, lust, and suffering of the sensual world, Full Catastrophe Living uses the self as an instrument to investigate art, love, and the hardest honesty. In meditations, songs, slapstick sequences, sonnets, narratives, and tightly carved fragments, Savich explores the conflicts between romance and reality, between inventing a new world and staying true to this one. Relishing both traditional and experimental poetics, he takes refreshing, ecumenical risks to show the "strange grace / of bells that ring with a rag's polishing." Like a Fourth of July band conductor guiding

planes to land, his poetic wit alters what's real. This book will change the ways that readers think about poetry, language's expressive capacity, and the robust world around us.

The time-honored national bestseller, updated with a new afterword, celebrating 10 years of influencing the way we live. Ten years later, the book continues to change lives. In honor of the book's 10th anniversary, Hyperion is proud to be releasing the book with a new afterword by the author, and to share this wonderful book with an even larger audience.

Mindfulness opens us up to the possibility of being fully human as we are, and of expressing the humane in our way of being. Mindlessness de facto closes us up and denies us the fullness of our being alive. This book may on the surface appear to be merely another offering in the genre of daily readings. But deep within these 108 selections lie messages of profound wisdom in a contemporary and practical form that can lead to both healing and transformation. We so urgently need to rotate in consciousness in order to safeguard what precious sanity is available to us on this planet. How we carry ourselves will determine the direction the world takes because, in a very real way, we are the world we inhabit. Our world is continuously being shaped by our participation in

"Perhaps our real work, whether offering or seeking care, is to recognize that the healing relationship--the field upon which patient and practitioner meet--is, to use the words of the mythologist Joseph Campbell, a 'self-mirroring mystery'--the embodiment of a singular human activity that raises essential questions about self, other, and what it means to heal thy

self." --Saki Santorelli Today we are experiencing extraordinary technological advances in the diagnosis and treatment of illness while at the same time learning to take more responsibility for our own health and well-being. In this book, Saki Santorelli, director of the nationally acclaimed Stress Reduction Clinic, explores the ancient roots of medicine, and shows us how to introduce mindfulness into the crucible of the healing relationship, so that both patients and caregivers begin to acknowledge that we are all wounded and we are all whole. His approach revolutionizes the dynamics of the patient/practitioner relationship. In describing the classes at the clinic and the transformation that takes place in this alchemical process, he offers insights and effective methods for cultivating mindfulness in our everyday
