This introduction to some of the principal models in the theory of disordered systems leads the reader through the basics, to the very edge of contemporary research, with the minimum of technical fuss. Topics covered include random walk,

Read Free Gap Ysis Riordan

percolation, self-avoiding walk, interacting particle systems, uniform spanning tree, random graphs, as well as the Ising, Potts, and random-cluster models for ferromagnetism, and the Lorentz model for motion in a random medium. This new edition features accounts of major recent progress, including the exact value of the connective constant of the hexagonal lattice, and the critical point of the random-cluster model on the square lattice. The choice of topics is strongly motivated by modern applications, and focuses on areas that merit further research. Accessible to a wide audience of mathematicians and physicists, this book can be used as a graduate course text. Each chapter ends with a range of exercises.

Formal analysis is the study of formal power series, formal Laurent series, formal root series, and other formal series or formal functionals. This book is the first comprehensive presentation of the topic that systematically introduces formal analysis, including its algebraic, analytic, and topological structure, along with various applications.

Nation Branding: Concepts, Issues, Practice was the groundbreaking first textbook to provide an overview of this recently established but fast-growing practice, in which the principles of brand management are applied to countries rather than companies. Many governments have invested in nation branding in order to strengthen their country's influence, improve its reputation, or boost tourism, trade and

investment. This new edition has been comprehensively revised and its influential original framework modified to reflect the very latest changes to this still-developing field. It remains an accessible blend of theory and practice rich with international examples and contributions. Updates to this edition: New international cases of countries as diverse as China, United Arab Emirates, Ghana, Cuba, India, Great Britain and many more; New contributions from distinguished scholars, diplomats and businesspeople providing a range of case studies, practitioner insights and academic perspectives; New Companion Website to support the book featuring instructor aids such as PowerPoint presentations for each chapter and an instructor manual; This much-anticipated update to an influential book is an essential introduction to

nation branding for students and policy makers.

This volume examines children's and young people's emotions in policy-making and professional practice. It seeks both to inform readers about up-to-date research and to provoke debate, encouraging and enabling critical reflections upon emotions in policy and practice, relevant to readers' own context.

Nation Branding: Concepts, Issues, Practice is a comprehensive and exciting text that demonstrates why nations are embracing the principles of brand management. It

clearly explains how the concepts and techniques of branding can be adapted to the context of nations- as opposed to the more usual context of products, services, or companies. Concepts grounded in the brand management literature such as brand identity, brand image, brand positioning, and brand equity, are transposed to the domain of nation branding and supported by country case insights that provide vivid illustrations of nation branding in practice. Nation branding is a means by which more and more nations are attempting to compete on the global stage. Current practice in nation branding is examined and future horizons traced. The book provides: * The first overview of its kind on nation branding * A blend of academic theory and real world practice in an accessible, readable fashion * A clear and detailed adaptation

of existing brand theory to the emerging domain of nation branding * An original conceptual framework and models for nation branding * A rich range of international examples and over 20 contributions by leading experts from around the world Country case insights on nation branding strategies currently being utilized by nations such as Japan, Egypt, Brazil, Switzerland, Iceland, and Russia Clearly and coherently structured, the book is an essential introduction to nation branding for both students and policymakers and will be an essential text for those interested in this fast growing area. Key Features: * Seminal text in a cutting-edge, controversial and crucial field of global importance * Ideal blend of theory and practice * Twenty individual country case studies, including USA, Hong Kong, Japan, New Zealand,

Spain and China.

Cleft Palate and Craniofacial Conditions is the marketing leading title for the graduate course on craniofacial conditions and cleft palate or as a sourcebook for health care professionals who provide service in this area. It is designed to be a how-to guide as well as a source of didactic and theoretical information. Author, Ann Kummer, is a highly recognized and respected active clinician with a specialty in the field.

This graduate-level text gives a thorough overview of the analysis of Boolean functions, beginning with the most basic definitions and proceeding to advanced topics.

This second edition of a well-received text, with 20 new chapters, presents a coherent and unified repository of recommender systems' major concepts, theories, methodologies, trends, and challenges. A variety of real-world applications and detailed case studies are included. In addition to wholesale revision of the existing chapters, this edition includes new topics including: decision making and recommender systems, reciprocal recommender systems, recommender systems in social networks, mobile recommender systems, explanations for recommender systems, music recommender systems, cross-domain recommendations, privacy in recommender systems, and semantic-based recommender systems. This multi-
