This book gives an overview of the crucial events that took place during the passage from the Ottoman to the Venetian rules in the Dalmatian hinterland during the Candian and Morean Wars in the second half of the 17th century. The hinterland of the capital city of the Venetian dual province of Dalmatia and Albania || the city of Zadar/Zara || has been used here as a case study to depict all the changes relating to: inhabitation, the appearance of settlements, changes in the populations and migrations, the forms and models of administrative and political institutions, specific border economies and the development of Venetian border areas through trade with the Ottomans alongside agriculture in the contado. Studied here is how the city of Zadar, whose life was organised as a typical coastal community like many in the Venetian Republic along with its contado, managed to enlarge its territory and incorporate elements of Ottoman political, administrative and cultural heritage along with thousands of Ottoman Christian subjects.

The social lives of the peoples of the Balkans have long stimulated the imaginations of their northern European neighbors. These peoples and places have anthropological traditions of their own, shaped initially by nationalist movements and, later, by socialism and other political constraints. From an anthropological perspective, this book explores the region between Greece and Slovenia, when political pressures were strongest in the era of the Cold War. Yet, the environments were by no means uniformly repressive. The study provides indispensable insights for new generations pursuing innovative research agendas in this region in the new century. It raises deeper issues about the boundaries and substance of the anthropological endeavor. (Series: Halle Studies in the Anthropology of Eurasia - Vol. 29)

"Three official languages have emerged: Croatian in Croatia, Serbian in Serbia, and both these languages plus Bosnian in Bosnia-Herzegovina. Bosnian, Croatian, Serbian, a Textbook introduces the student to all three. Dialogues and exercises appear in each language, presented side by side for easy comparison; in addition, Serbian is rendered in both its Latin and its Cyrillic spellings. Teachers may choose a single language to use in the classroom, or they may want to familiarize students with all three"--Book jacket.
