Ghosts of Spain: Travels Through Spain and Its Silent Past ...

Tremlett, G. (2006) Ghosts of Spain: Travels Through a Country ' s Hidden Past. London: Faber and Faber Ltd. Google Scholar Turner, L. and Ash, J. (1975) The Golden Hordes: International Tourism and the Pleasure Periphery .

An eloquent odyssey through Spain's dark history journeys into the heart of the Spanish Civil War to examine the causes and consequences of a painful recent past, as well as its repercussions in terms of the discovery of mass graves containing victims of Franco's death squads and the lives of modern-day Spaniards. Reprint.

Spaniards are reputed to be amongst Europe's most forthright people. So why have they kept silent about the terrors of their Civil War and the rule of General Franco? This apparent 'pact of forgetting' inspired writer Giles Tremlett to embark on a journey around Spain and its history. He found the ghosts of Spain everywhere, almost always arguing. Who caused the Civil War? Why do Basque terrorists kill? Why do Catalans hate Madrid? Did the Islamist bombers who killed 190 people in 2004 dream of a return to Spain's Moorish past? Tremlett's curiosity led him down some strange and colourful byroads, and brought him unexpected insights into the Spanish character.

This is a much-needed new overview of Spanish social and political history which sets developments in twentieth-century Spain within a broader European context. Julián Casanova, one of Spain's leading historians, and Carlos Gil Andrés chart the country's experience of democracy, dictatorship and civil war and its dramatic transformation from an agricultural and rural society to an industrial and urban society fully integrated into Europe. They address key questions and issues that continue to be discussed and debated in contemporary historiography, such as why the Republic was defeated, why Franco's dictatorship lasted so long and what mark it has left on contemporary Spain. This is an essential book for students as well as for anyone interested in Spain's turbulent twentieth century.

'Magnificent. Narrative history at its vivid and compelling best' Fergal Keane The first major history of the International Brigades: a tale of blood, ideals and tragedy in the fight against fascism. The Spanish Civil War was the first armed battle in the fight against fascism, and a rallying cry for a generation. Over 35,000 volunteers from sixty-one countries around the world came to defend democracy against the troops of Franco, Hitler and Mussolini. Ill-equipped and disorderly, yet fuelled by a shared sense of purpose and potential glory, disparate groups of idealistic young men and women banded together to form a volunteer army of a size and kind unseen since the Crusades, known as the International Brigades. These passionate liberal fighters – from across Europe, China, Africa and the Americas – would join the Republican cause, fighting for over two years on the bloody battlegrounds of Madrid, Jarama and Ebro. Were they heroes or fools? Saints or bloodthirsty adventurers? And what exactly did they achieve? This is a story rendered vivid in the writings of Orwell and Hemingway, the paintings of Picasso and the photographs of Taro and Capa. But here, in this magisterial history, award-winning historian Giles Tremlett tells – for the first time – the story of the Spanish Civil War through the experiences of this remarkable group of people. Drawing on the Brigades' extensive archives in Moscow, Comintern documents and first-hand accounts, Tremlett captures all the human drama of an historic mission to halt fascist expansion in Europe. A fascinating history of resistance, The International Brigades shows just how far ordinary people will go to save democracy against overwhelming odds in a tale of European solidarity that resonates just as strongly today.

File Type PDF Ghosts Of Spain Travels Through A Countrys Hidden Past

Your table is ready!

A fun and interesting book about Spain. It comes packed with fun and juicy trivia, fun facts and interesting stories about the great country of Spain.

Chris, eternal optimist and itinerant sheep shearer, moves with his wife Ana to a mountain farm in Las Alpujarras, an oddball region in the south of Spain. Misadventures gleefully unfold as Chris discovers that the owner has no intention of leaving and meets their neighbours, an engaging mix of peasant farmers and shepherds, New Age travellers and ex-pats. Their daughter Chloë is born, linking them irrevocably to their new life. The hero of the piece, however, is the farm itself - a patch of mountain studded with olive, almond and lemon groves, sited on the wrong side of a river, with no access road, water supply or electricity. Could life offer much better than that?
