When 15-year-old newcomer Amalia Blanchard makes a splash with her beam routine in front of the entire U.S. national team, veterans like Ruby Spencer-whose 2012 Olympic dreams were dashed due to an injury just a month before the Games-and Emerson Bedford-a two-time world champion set to run the show in Rio-start to take notice. With preliminary competitions to get through before the team trials, all three have something to prove, as Emerson struggles to maintain her queen bee status, Ruby tries to show everyone she is still a contender, and Amalia hopes she has what it takes to stand out in a talented field. Finding Our Balance follows these extraordinary teenage girls through heartbreak, triumph, and everything in between as their lifetime of training comes down to a single summer that will change their lives forever.

The definitive, devastating account of the largest sex abuse scandal in American sports history-with new details and insights into the institutional failures, as well as the bravery that brought it to light. For decades, osteopathic physician Larry Nassar built a sterling reputation as the go-to doctor for America's Olympians while treating countless others at his office on Michigan State University's campus. It was largely within the high-pressure world of competitive gymnastics that Nassar exploited young girls, who were otherwise motivated by fear and intimidation, sexually assaulting hundreds of them under the guise of medical treatment. In *Start by Believing*, John Barr and Dan Murphy confront Nassar's acts, which represent the largest sex abuse scandal to impact the sporting world. Through never-before-released interviews and documents they deconstruct the epic institutional failures and individuals who enabled him. When warnings were raised, self-serving leaders chose to protect their organizations' reputations over the well-being of young people. Following the paths traveled by courageous women-featuring a once-shy Christian attorney and a brash, outspoken Olympic medalist-Barr and Murphy detail the stories of those who fought back against the dysfunction within their sport to claim a far-from-inevitable victory. The gymnasts' uncommon perseverance, along with the help of dedicated advocates brought criminals to justice and helped to fuel the #MeToo revolution. *Start by Believing* reveals the win-at-all-costs culture in elite athletics and higher education that enabled a quarter century of heinous crimes.

Constantinople, 1599. Paul Pindar, a secretary to the English ambassador, thinks he has lost his love, Celia, in a shipwreck. Now, two years later, clues begin to emerge that she may be hidden among the ranks of the slaves in the Sultan's harem. But how can he be sure? And can they be reunited? With a secret rebellion rising within the Sultan's palace, danger surrounds the lovers. A lush, ancient tale of treacherous secrets, forbidden love, and murder in the Ottoman palace, *The Aviary Gate* is exotic historical fiction at its very best.

"Mommy, mommy, call him. Tell him to come here right away. I have so many things to tell him!" I had a ton of things to tell him. I wanted him to find a solution to all the shortages of clothes; of meat, so it would again be distributed through the ration books. I also wanted to ask him to give our Christmas back. And to come live with us. I wanted to let him know how much we really needed him... Fidel didn't answer my letter. I kept writing him letters from a sweet and well-behaved child, a brave but sad girl. Letters resembling those of a secret, spurned lover... As a girl growing up in Cuba, Alina Fernandez found nothing abnormal in the fact that Fidel Castro would occasionally visit her house bearing gifts just for her. At the age of ten, her mother finally told her the truth: she was Castro's Daughter.

An erotically charged, addictive thriller from the future queen of suspense. Living in Toronto for a year, Elena is leading the normal life she has always dreamed of, including a stable job as a journalist and a nice apartment shared with her boyfriend. As the lone female werewolf in existence, only her secret midnight prowls and her occasional inhuman cravings set her apart. Just one year ago, life was very different. Adopted by the Pack when bitten, Elena had spent years struggling with her resentment at having her life stolen away. Torn between two worlds, and overwhelmed by the new

passions coursing through her body, her only option for control was to deny her awakening needs and escape. But now the Pack has called Elena home to help them fight an alliance of renegade werewolves who are bent on exposing and annihilating the Pack. And although Elena is obliged to rejoin her "family," she vows not to be swept up in Pack life again, no matter how natural it might feel. She has made her choice. Trouble is, she's increasingly uncertain if it's the right one. An erotically charged thriller, *Bitten* will awaken the voracious appetite of every reader, as the age-old battle between man and beast, between human and inhuman forces, comes to a head in one small town and within one woman's body.

This comprehensive and leading textbook has been revised and reworked building on the themes of the first edition. As before it covers all aspects of the nature of mind, and is ideal for anyone coming to philosophy of mind for the first time.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.
