What people are saying about The  
New How "How are you going to  
get rid of your Air Sandwich if you  
don't even know what it is?

Provocative and practical at the  
same time." --Seth Godin, author

## Online Library Global Business Solutions Llc

of Linchpin "The New How is informative and provides exciting insights because the suggestions are practical and doable. Merchant gets the new reality--leadership fails not so much from flawed strategy as it does from failed processes of engagement from

## Online Library Global Business Solutions Llc

those responsible for implementing the strategy. In high-performing organizations, everyone acts like a leader, and they own the strategy and take actions to ensure its success. If you care about making a difference, read this book."

## Leadership Challenge

"Collaboration is a powerful, competitive weapon: this book shows you how to use it to win markets." --Mark Interrante, VP Content Products, Yahoo, Inc. "In a world in which the pace of change is ever quickening, collaboration,

## Online Library Global Business Solutions Llc

not control, is the route to a successful organization. This book tells you how to make your organization collaborative. And Nilofer Merchant's writing is a model of clarity." --Barry Schwartz, author of *The Paradox of Choice: Why More Is Less*

## Online Library Global Business Solutions Llc

"Want to transform your organization into a collaborative enterprise? Nilofer Merchant provides insightful and practical strategies in *The New How*."

--Padmasree Warrior, CTO, Cisco Systems, Inc. "Merchant's book is a practical guide for the journey

from strategy to implementation. The collaborative tools described here can help companies reach strategic success--and avoid pitfalls along the way." --Tom Kelley, General Manager, IDEO, and author of Ten Faces of Innovation Once in a generation, a

## Online Library Global Business Solutions Llc

book comes along that transforms the business landscape. For today's business leaders, The New How redefines the way companies create strategies and win new markets. Management gurus have always said "people matter." But those same gurus still relegate

## Online Library Global Business Solutions Llc

strategy to an elite set of executives who focus on frameworks, long presentations, and hierarchical approaches. Business strategy typically has been planned by corporate chiefs in annual meetings, and then dictated to managers to carry out.

## Online Library Global Business Solutions Llc

The New How turns that notion on its head. After many years of working with Apple, Adobe, HP, and many other companies, Nilofer Merchant discovered the secret sauce: the best way to create a winning strategy is to include employees at all levels, helping to

## Online Library Global Business Solutions Llc

create strategy they not only believe in, but are also equipped to implement. In *The New How*, Nilofer shows today's corporate directors, executives, and managers how they can transform their traditional, top-down approach to strategy planning and

# Online Library Global Business Solutions Llc

execution into collaborative  
"stratecution" that has proven to  
be significantly more effective.  
Enhance performance and  
outcomes by deflating the "air  
sandwich" between executives in  
the boardroom and employees  
Recognize that strategy and

# Online Library Global Business Solutions Llc

execution are thoroughly intertwined Understand how successful strategy is founded in effective idea selection-a pile of good ideas doesn't necessarily build good strategy Create company strategy and link it to targeted execution, using the
