Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of

## Read Online Guided Reading The Cold War

People held their collective breath as the United States and the Soviet Union, two national ideological entities, waged proxy wars to determine spheres of influence—and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War—as a military event with sociopolitical and economic overtones—is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of *MHQ: The Quarterly Journal of Military History*. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados, in “The War Scare of 1983,”

## Read Online Guided Reading The Cold War

shows just how close we were to escalating a war of words into a nuclear holocaust. Victor Davis Hanson offers “The Right Man,” his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer’s “The Berlin Tunnel,” which details the charismatic C.I.A. operative “Big Bill” Harvey’s effort to tunnel under East Berlin and tap Soviet phone lines—and the Soviets’ equally audacious reaction to the plan; while “The Truth About Overflights,” by R. Cargill Hall, sheds light on some of the Cold War’s best-kept secrets. The often overlooked human cost of fighting the Cold War finds a clear

voice in “MIA” by Marilyn Elkins, the widow of a Navy airman, who details the struggle to learn the truth about her husband, Lt. Frank C. Elkins, whose A-4 Skyhawk disappeared over Vietnam in 1966. In addition there are profiles of the war’s “front lines”-Dien Bien Phu, the Cuban Missile Crisis, the Bay of Pigs-as well as of prominent military and civil leaders from both sides, including Harry S. Truman, Nikita Khrushchev, Dean Acheson, Gen. Douglas MacArthur, Richard M. Nixon, Gen. Vo Nguyen Giap, and others. Encompassing so many perspectives and events, The Cold War succeeds at an impossible task: illuminating and explaining the history of an undeclared shadow war that

### Unstoppable nuclear-weapon delivery system, the

intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

Heavily armed and formidable, guided missile cruisers formed the core of the Soviet Navy during the Cold War. From the last class of conventional Sverdlov-class cruisers through to increasingly complex and formidable missile cruisers, these ships ensured that

## Read Online Guided Reading The Cold War

NATO took the Soviet naval threat seriously. Soviet Cold War Guided Missile Cruisers covers all classes of these impressive warships, from the early Sverdlov through the Kynda, Kresta, Kara and Slava to the enormous Kirov classes. Together, these vessels marked the apogee of Soviet naval technology and capability and they remain today the largest non-aircraft carrier warships built since 1945. Containing material previously only available in Russian and fully researched from specialist defence journals, this comprehensive volume examines the design, development, and intended role of these impressive, hi-tech warships, and recounts their dramatic operational history as NATO and Soviet warships

faced off against each other during the long Cold War at sea.

“Enthralling. . . . Lying and stealing and invading, it should be said, make for captivating reading, especially in the hands of a storyteller as skilled as Anderson.” —The New York Times Book Review A NEW YORK TIMES NOTABLE BOOK OF THE YEAR At the end of World War II, the United States was considered the victor over tyranny and a champion of freedom. But it was clear—to some—that the Soviet Union was already seeking to expand and foment revolution around the world, and the American government’s strategy in response relied on the secret efforts of a newly formed CIA.

## Read Online Guided Reading The Cold War

Chronicling the fascinating lives of the agents who sought to uphold American ideals abroad, Scott Anderson follows the exploits of four spies: Michael Burke, who organized parachute commandos from an Italian villa; Frank Wisner, an ingenious spymaster who directed actions around the world; Peter Sichel, a German Jew who outwitted the ruthless KGB in Berlin; and Edward Lansdale, a mastermind of psychological warfare in the Far East. But despite their lofty ambitions, time and again their efforts went awry, thwarted by a combination of ham-fisted politicking and ideological rigidity at the highest levels of the government. Told with narrative brio, deep research, and a

### Skeptical eye, The Quiet

Americans is the gripping story of how the United States, at the very pinnacle of its power, managed to permanently damage its moral standing in the world.

A chilling, riveting account based on newly released Russian documentation that reveals Joseph Stalin's true motives—and the extent of his enduring commitment to expanding the Soviet empire—during the years in which he seemingly collaborated with Franklin D. Roosevelt, Winston Churchill, and the capitalist West. At the Big Three conferences of World War II, Joseph Stalin persuasively played the role of a great world leader, whose primary concerns

## Read Online Guided Reading The Cold War

lay in international strategy and power politics, and not communist ideology. Now, using recently uncovered documents, Robert Gellately conclusively shows that, in fact, the dictator was biding his time, determined to establish Communist regimes across Europe and beyond. His actions during those years—and the poorly calculated responses to them from the West—set in motion what would eventually become the Cold War. Exciting, deeply engaging, and shrewdly perceptive, *Stalin's Curse* is an unprecedented revelation of the sinister machinations of Stalin's Kremlin.

Unspoiled. Uninhabited. Under attack... On the wind-swept, ice-

Technologies has established a scientific research facility called Cold Corners. But its testing of potential robotic landing craft for use on Mars is disrupted when one of the rovers disappears—along with the repair team sent out after it. Fear of discovery has prompted a renegade consortium—that is illegally using Antarctica as a nuclear waste dump—to wipe out the UpLink base. Now, the men and women of Cold Corners have only themselves to rely on as the consortium mounts its decisive strike against the ice station—and the final sunset plunges them into the total darkness of a polar winter...

Section 3  
Here is the story of political prisoners finally freed in December 2014, after being held captive by the United States since the late 1990s. Through the 1980s and 1990s, violent anti-Castro groups based in Florida carried out hundreds of military attacks on Cuba, bombing hotels and shooting up Cuban beaches with machine guns. The Cuban government struck back with the Wasp Network—a dozen men and two women—sent to infiltrate those organizations. The Last Soldiers of the Cold War tells the story of those unlikely Cuban spies and their eventual unmasking and prosecution by US authorities. Five of the Cubans received long or life prison terms

on charges of espionage and murder. Global best-selling Brazilian author Fernando Morais narrates the riveting tale of the Cuban Five in vivid, page-turning detail, delving into the decades-long conflict between Cuba and the US, the growth of the powerful Cuban exile community in Florida, and a trial that eight Nobel Prize winners condemned as a travesty of justice. *The Last Soldiers of the Cold War* is both a real-life spy thriller and a searching examination of the Cold War's legacy.

Investigated for suspected communist ties during the Cold War, and the 10--known as the Hollywood Ten--who were blacklisted for standing up for their First Amendment rights and refusing to cooperate. World War II is over, but tensions between the communist Soviet Union and the US are at an all-time high. In America, communist threats are seen everywhere and a committee is formed in the nation's capital to investigate those threats. Larry Dane Brimner follows the story of 19 men--all from the film industry--who are summoned to appear before the House of Representatives Committee on Un-American Activities. All 19 believe that the committee's investigations into

archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.
