Over the past few decades, a wave of immigration has turned New York into a microcosm of the Americas and enhanced its role as the crossroads of the English- and Spanish-speaking worlds. Yet far from being an alien group within a "mainstream" and supposedly pure "Anglo" America, people referred to as Hispanics or Latinos have been part and parcel of New York since the beginning of the city's history. They represent what Walt Whitman once celebrated as "the Spanish element of our nationality." Hispanic New York is the first anthology to offer a comprehensive view of this multifaceted heritage. Combining familiar materials with other selections that are either out of print or not easily accessible, Claudio Iván Remeseira makes a compelling case for New York as a paradigm of the country's Latinoization. His anthology mixes primary sources with scholarly and journalistic essays on history, demography, racial and ethnic studies, music, art history, literature, linguistics, and religion, and the authors range from historical figures, such as José Martí, Bernardo Vega, or Whitman himself, to contemporary writers, such as Paul Berman, Ed Morales, Virginia Sánchez Korrol, Roberto Suro, and Ana Celia Zentella. This unique volume treats the reader to both the New York and the American experience, as reflected and transformed by its Hispanic and Latino components.

Traces the author's turbulent first year working as a teacher of disadvantaged students in the Bronx, describing his difficulties with such challenges as unruly students, absent parents, and a failing administration, obstacles that placed his career choice in question and revealed formidable flaws in the educational system.

Looks at the life and works of Sarah Dessen, discussing the themes and characters found in her works.

Recalling an earlier era when cooks relied on sight, touch, and taste rather than cookbooks, the author encourages readers to rediscover the lost art of preparing food and use their imagination in the kitchen. \$25,000 ad/promo.

"Bestselling author and psychologist Michael Gurian, who's guided readers through the world of raising children, turns his attention to aging in this comprehensive, holistic look at the emotional, spiritual, and physical dimensions of life after 50, showing how the reader can learn to embrace and celebrate life as they age"--

Falling Into the Fire is psychiatrist Christine Montross's thoughtful investigation of the gripping patient encounters that have challenged and deepened her practice. The majority of the patients Montross treats in Falling Into the Fire are seen in the locked inpatient wards of a psychiatric hospital; all are in moments of profound crisis. We meet a young woman who habitually commits self-injury, having ingested light bulbs, a box of nails, and a steak knife, among other objects. Her repeated visits to the hospital incite the frustration of the staff, leading Montross to examine how emotion can interfere with proper care. A recent college graduate, dressed in a tunic and declaring that love emanates from everything around him, is brought to the ER by his concerned girlfriend. Is it ecstasy or psychosis? What legal ability do doctors have to hospitalize—and sometimes medicate—a patient against his will? A new mother is admitted with incessant visions of harming her child. Is she psychotic and a danger or does she suffer from obsessive thoughts? Her course of treatment—and her child's future—depends upon whether she receives the correct diagnosis. Each case study presents its own line of inquiry, leading Montross to seek relevant psychiatric knowledge from diverse sources. A doctor of uncommon curiosity and compassion, Montross discovers lessons in medieval dancing plagues, in leading forensic and neurological research, and in moments from her own life. Beautifully written, deeply felt, Falling Into the Fire brings us inside the doctor's mind, illuminating the grave human costs of mental illness as well as the challenges of diagnosis and treatment. Throughout, Montross confronts the larger question of psychiatry: What is to be done when a patient's experiences cannot be accounted for, or helped, by what contemporary medicine knows about the brain? When all else fails, Montross finds, what remains is the capacity to abide, to sit with the desperate in their darkest moments. At once rigorous and meditative, Falling Into the Fire is an intimate portrait of psychiatry, allowing the reader to witness the humanity of the practice and the enduring mysteries of the mind

General Charles Ferguson, Commander of the British Prime Minister's private hit squad and adviser to the new president of the United States, has been given a disturbing recording from Afghanistan, on which the murders of American Army Rangers and a British medical team are recorded. About half of the Taliban force voices on the tape are British. One authoritative voice is Irish; code name: Shamrock. Shocked that one of their own could be responsible for a massacre, General Ferguson tasks Sean Dillon with hunting the traitor. But even as Dillon goes to war, the war is coming to him...
