Helping students succeed in three main parts: class involvement activities, reading this book, and writing about your learning in an interactive notebook.

Bring Science Alive! is an Integrated program built from the ground up to align to the Next Generation Science Standards (NGSS). Bring Science Alive! embodies the new vision for how science should be taught in schools--focusing on big picture concepts and teaching students how to "do science"--rather than memorize facts. [from publisher's website]

The Latin Alive! Book One: Teacher's Edition includes a complete copy of the student text, as well as answer keys, extra teacher's notes and explanations, unit tests, and bonus projects and activities.

The Complete Book of United States History provides 352 pages of fun exercises for students in grades 3 to 5 that teaches important lessons in U.S. History! The exercises cover pre-United States history with the native peoples of the American continent to present day, and it also includes a complete answer key, user-friendly activities, and easy-to-follow instructions. --Over 4 million in print! Designed by leading experts, books in the Complete Book series help children in grades preschool-6 build a solid foundation in key subject areas for learning success. Complete Books are the most thorough and comprehensive learning guides available, offering high-interest lessons to encourage learning and fun, full-color illustrations to spark interest. Each book also features challenging concepts and activities to motivate independent study, and a complete answer key to measure performance and guide instruction.

To provide an introduction to the Spanish language, emphasizing limited language acquisition and extensive cultural awareness.

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

Helping students succeed in three main parts: class involvement activities, reading this book, and writing about your learning in an interactive notebook.

Strong reading skills are the basis of school success, and Spectrum Reading for grade 7 will help children triumph over language arts and beyond. This standards-based workbook uses engaging texts to support understanding

story structure, key ideas, details, and knowledge integration. Spectrum Reading will help your child improve their reading habits and strengthen their ability to understand and analyze text. This best-selling series is a favorite of parents and teachers because it is carefully designed to be both effective and engaging—the perfect building blocks for a lifetime of learning.
