This book is a sound and comprehensive introduction to advertising planning and branding. Intended for students of and beginners in advertising and marketing, it discusses key issues and market realities, many of which are ignored and neglected in developing markets. The structure of this book follows a stepwise process, which starts from the beginning of the advertising planning process to the end product, which is the creative brief. Each chapter discusses a conceptual principle, which is illustrated by relevant examples. Some key issues discussed in this book are: -

planning for communication in a context; - Segmentation: studying and understanding the dimensions, demographics, and psychographics of the target group; - Differentiators and Motivators: discovering what can change the consumers' mind; " managing a brand over time, looking at the entire life-cycle of a brand. Each chapter ends with an `Action Point', which helps the reader to apply the principles discussed through an exercise.

Covers all models of Amigo, Hombre, Pick-Ups, Rodeo and Trooper, 2 and 4 wheel drive, gasoline and diesel engines.

The Second Edition of this classic text maintains the clear exposition, logical organization, and accessible breadth of coverage that have been its hallmarks. It plunges directly into algebraic structures and incorporates an unusually large number of examples to clarify abstract concepts as they arise. Proofs of theorems do more than just prove the stated results; Saracino examines them so readers gain a better impression of where the proofs come from and why they proceed as they do. Most of the exercises range from easy to moderately difficult and ask for understanding of ideas rather than flashes of insight. The new edition introduces five new sections on field extensions and Galois theory, increasing its versatility by making it appropriate for a two-semester as well as a one-semester course.

The collection contains proofsheets for Stone's University of Virginia dissertation autographed by Stone for presentation to the Beta of Virginia chapter of Phi Beta Kappa.
