inches long and weighs around 60lbs when ready for steaming and pulls an adult round with ease. Many have been built already by amateurs, proving the simplicity of design and being completed quickly compared to similar sized but more complicated engines and only two parts need to be purchased to complete this engine, other than steam fittings, the heating and transmission, making this engine an inexpensive project to complete with most being readily available stock from most hobby shops. By looking at this you've taken the first step to owning your own live-steam traction engine and with just a little persistence it will not be long before you are driving your own live-steam creation, built with your own hands; being pulled around easily as you watch the crankshaft and flywheel spinning almost silently right in front of your eyes as you trundle along. This is an upgraded version covering the latest steam regulations

This book details the construction of a range of simple miniature steam engines and boilers. The projects, each of which can be completed with only a basic workshop, range from a single-acting oscillator to more sophisticated twin-cylinder double-acting engines and a variety of boilers. A final project brings together engine and boiler for a simple steam railway locomotive. These projects are a perfect introduction to model engineering and an enjoyable exercise for the more experienced engineer or those who wish to pass on their hobby to a younger generation. In this beautifully compiled book, Charlie Whinney, the UK's leading expert on the topic, shares the secrets of the unique and magical craft of steam-bending. Although his creations look quite impossible, the reader will soon discover that wood can be made to behave in remarkable ways with the application of a little heat and steam. Charlie guides you through the ecological sourcing of wood for your projects and then, with practical instructions, reveals how to create 16 steam-bent masterpieces. Form a wooden coat hanger in the embers of a campfire, create perfectly round wooden hoops using just a saucepan and a mug, or use the steam from a kettle to shape a beautiful fruit bowl.
