This book presents the thoroughly refereed and revised post-workshop proceedings of the 17th Monterey Workshop, held in Oxford, UK, in March 2012. The workshop explored the challenges associated with the Development, Operation and Management of Large-Scale complex IT Systems. The 21 revised full papers presented were significantly extended and improved by the insights gained from the productive and lively discussions at the workshop, and the feedback from the post-workshop peer reviews.

"Designing with Photovoltaics" cover a broad range of topics related to the design of products, buildings and vehicles with integrated photovoltaic (PV) technologies including storage aspect. It enables the reader to easily design new products, buildings and vehicles through use of innovative PV products. Diverse categories of product integrated PVs are discussed including applications of solar power for mobility and building integrated systems along with design- and manufacturing-related information about solar cells. Illustrating design cases of various PV-powered products, special attention is paid to end-users and environmental aspects of PV applications. Aimed at senior undergraduates, graduates and professionals in electrical engineering, architecture, design, physics, mechanical engineering and those specifically studying photovoltaics, it Covers the different product integrated photovoltaics (PIPV) with a focus on design and manufacturing Presents comprehensive overview of all aspects of designing with photovoltaics Includes product integrated PV, building integrated PV and solar powered mobility concepts Contains real design cases showing how to design with photovoltaics Discusses context of environmental issues and user aspects

Excerpt: The HTC Dream (also marketed as T-Mobile G1 in the US and parts of Europe and Era G1 in Poland) is an Internet-enabled smartphone with an operating system designed by Google and hardware designed by HTC. It was the first phone to the market to use the Android mobile device platform. The phone is part of an open standards effort of the Open Handset Alliance. The HTC Dream was released in the US on 22 October 2008; in the UK on 30 October 2008; and became available in other European countries including Austria, Netherlands, and the Czech Republic in early 2009. It was released in Germany in February 2009 with a QWERTZ keyboard and in France in March 2009 with an AZERTY keyboard. On 10 March 2009, it became available in Poland as Era G1 under a local mobile brand affiliated with T-Mobile. As of 2008, in the US, it was priced starting at \$129.99 for new and existing T-Mobile customers if purchased with a two-year T-Mobile voice and data plan, ..

What is the Mediterranean? The perception of the Mediterranean leans equally on the nature, culture, history, lifestyle, and landscape. To approach the question of identity, it seems that we have to give importance to all of these. There is no Mediterranean identity, but Mediterranean identities. Mediterranean is not about the homogeneity and uniformity, but about the unity that comes from diversities, contacts, and interconnections. The book tends to embrace the environment, society, and culture of the Mediterranean in their multiple and unique interconnections over the millennia, contributing to the better understanding of the essential human-environmental interrelations. The choice of 17 chapters of the book, written by a number of prominent scholars,

clearly shows the necessity of the interdisciplinary approach to the Mediterranean identity issues. The book stresses the most serious concerns of the Mediterranean today - threats to biodiversity, risks, and hazards - mostly the increasing wildfires and finally depletion of traditional Mediterranean practices and landscapes, as constituent parts of the Mediterranean heritage.
