Multidisciplinary Studies in Science (Minor)

A dedicated microsite for Cambridge First Language English provides free online resources to support teachers, including answers to Coursebook activities. An interactive eBook of the Coursebook ...

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

A best-seller now available in full colour, covering the entire IB syllabus.

This fourth edition of Physics for the IB Diploma has been written for the IB student. It covers the entire new IB syllabus including all options at both Standard and Higher levels. It includes a chapter on the role of physics in the Theory of Knowledge along with many discussion questions for TOK with answers. There are a range of questions at the end of each chapter with answers at the back of the book. The book also includes worked examples and answers throughout, and highlights important results, laws, definitions and formulae. Part I of the book covers the core material and the additional higher level material (AHL). Part II covers the optional subjects.

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This workbook is specifically for the IB Physics syllabus, for examination from 2016. The Physics for the IB Diploma Workbook contains straightforward chapters that outline key terms, while providing opportunities to practise core skills, such as handling data, evaluating information and problem solving. Each chapter then concludes with exam-style questions. The workbook reinforces learning through the course and builds students' confidence using the core scientific skills - empowering them to become confident independent learners. Answers to all of the questions in the workbook are on the CD-ROM.

Stretch your students to achieve their best grade with these year round course companions; providing clear and concise explanations of all syllabus requirements and topics, and practice questions to support and strengthen learning. - Consolidate revision and support learning with a range of exam practice questions and concise and accessible revision notes - Practise exam technique with tips and trusted guidance from examiners on how to tackle questions - Focus revision with key terms and definitions listed for each topic/sub topic

Includes Practice Test Questions IB Physics (SL and HL) Examination Secrets helps you ace the International Baccalaureate Diploma Programme, without weeks and months of endless studying. Our comprehensive IB Physics (SL and HL) Examination Secrets study guide is written by our exam experts, who painstakingly researched every topic and concept that you need to know to ace your test. Our original research reveals specific weaknesses that you can exploit to increase your exam score more than you've ever imagined. IB Physics (SL and HL) Examination Secrets includes: The 5 Secret Keys to IB Test Success: Time is Your Greatest Enemy, Guessing is Not Guesswork, Practice Smarter, Not Harder, Prepare, Don't Procrastinate, Test Yourself; A comprehensive General Strategy review including: Make Predictions, Answer the Question, Benchmark, Valid Information, Avoid Fact Traps, Milk the Question, The Trap of Familiarity, Eliminate Answers, Tough Questions, Brainstorm, Read Carefully, Face Value, Prefixes, Hedge Phrases, Switchback Words, New Information, Time Management, Contextual Clues, Don't Panic, Pace Yourself, Answer Selection, Check Your Work, Beware of Directly Quoted Answers, Slang, Extreme Statements, Answer Choice Families; Along with a complete, in-depth study guide for your specific IB test, and much more...

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This Exam Preparation Guide contains up-to-date material matching the 2016 IB Diploma syllabus and offers support for students as they prepare for their IB Diploma Physics exams. The book is packed full of Model Answers, Annotated Exemplar Answers and Hints to help students hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help students apply their knowledge in exams. The book also contains lots of questions for students to use to track their progress. The book has been written in an engaging and student friendly tone making it perfect for international learners.

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This digital version of Physics for the IB Diploma Coursebook, Sixth edition, comprehensively covers all the knowledge and skills students need during the Physics IB Diploma course, for first examination in 2016, in a reflowable format. adapting to any screen size or device. Written by renowned experts in Physics teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

Provide clear guidance to the 2014 changes and ensure in-depth study with accessible content, directly mapped to the new syllabus and approach to learning. This bestselling textbook contains all SL and HL content, which is clearly identified throughout. Options are available free online, along with appendices and data and statistics. - Improve exam performance, with exam-style questions, including from past papers - Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study - Stretch more able students with extension activities - The shift to concept-based approach to learning , Nature of Science, is covered by providing a framework for the course with points for discussion - Key skills and experiments included - Full digital package - offered in a variety of formats so that you can deliver the course just how you like!

A must-have for all HL IB Physics Students. Complete, fully explained solutions for every paper 1 HL question from every released paper from the current syllabus (all seasons and time-zones from the new syllabus, including 2019) covering over 450 questions. This book is written by three IB graduates and current Physics tutors who all achieved a grade 7 in HL Physics and 43+ points overall (including 45-points!). Be guided through each question with detailed, step-by-step instructions to reach the correct answer. Take advantage of the plethora of useful tips included in the solutions, to get an edge on the day of the exam. Learn the most efficient way to answer each question in examination conditions - including techniques they don't teach you in school! This book is designed with multiple-choice in mind. You will develop strategies to spot the correct answer and be confident that your choice is correct. This detailed guide contains: A breakdown of what paper 1 is, its structure, format and relevance to the other papers Detailed worked solutions for all released paper 1 questions in the current syllabus (2016 onwards) A 45-point student's guide to acing paper 1. PLUS: A comprehensive Physics IA guide and checklist with detailed tips from the perspective of the examiner. A complete sample grade 7 IA (that obtained a score of 22/24 in 2020). Access to a complete sample level A Extended Essay. FULLY UPDATED FOR THE 2021 EXAM CYCLE. Use this book to walk into the exam hall with confidence that you have the skills to tackle any question that emerges.
