Can the daughter of Lucifer take down evil? Special Agent Blake Noble's job is to protect the humans from the supernaturals, but of course things never do go as planned. The second her superior's niece goes missing, Blake is assigned the case. She uncovers an old, dark vampire secret, and realizes it's the reason why so many of the city's citizens are disappearing. Her sights set on a suspect, Blake goes undercover where she meets the mysterious vampire Eli. While tracking down the suspects of the abductions, Blake's determined not to let Eli's allure and charm distract her. Things only worsen when Lucifer appears claiming to be her father. The last thing Blake needs are the devil's crazy antics. Between demon lessons with the devil and tracking down the elusive vampire suspects, Blake and Eli are forced to face truths they never expected. Can they prevent more victims? Or will they become victims themselves?

This book addresses a crucial aspect of sustaining a response-to-intervention (RTI) framework in a school: selecting interventions with the greatest likelihood of success and implementing them with integrity. Leading RTI experts explain how to match interventions to students' proficiency levels, drawing on cutting-edge research about the stages of learning. Effective academic and behavioral interventions for all three tiers of RTI are described in step-by-step detail and illustrated with vivid case examples. In a large-size format with lay-flat binding for easy photocopying, the book features more than 40 reproducible planning tools and other helpful forms.-- Provided by publisher.

The first full-length ethnographic study of its kind, Highland Homecomings examines the role of place, ancestry and territorial attachment in the context of a modern age characterized by mobility and rootlessness. With an interdisciplinary approach, speaking to current themes in anthropology, archaeology, history, historical geography, cultural studies, migration studies, tourism studies, Scottish studies, Paul Basu explores the journeys made to the Scottish Highlands and Islands to undertake genealogical research and seek out ancestral sites. Using an innovative methodological approach, Basu tracks journeys between imagined homelands and physical landscapes and argues that through these genealogical journeys, individuals are able to construct meaningful self-narratives from the ambiguities of their diasporic migrant histories, and recover their sense of home and self-identity. This is a significant contribution to popular and academic Scottish studies literature, particularly appealing to popular and academic audiences in USA, Canada, Australia, New Zealand and Scotland

America is the home of the brave and, apparently, the stupid and gullible. Satirist Leland Gregory teaches us a lesson in historical hilarity with Stupid American History. From Columbus to George W. Bush (that's a lot of material, people), Leland leads us through American history's mythconceptions, exposing idiocy and inanity along the time line. He reeducates by informing us about myths. For example, Samuel Prescott actually was the guy to alert us that the British were coming and not that Paul Revere dude. Move over Colbert and Stewart; satire has finally found its rightful place in American history. Excerpt from the book: *John Tyler was on his knees playing marbles when he was informed that Benjamin Harrison had died and he was now president of the United States. At that time marbles was a very popular game for both children and grown-ups.* For reasons still unknown, Texas congressman Thomas Lindsay Blanton, a Presbyterian Sunday school teacher and prohibitionist, inserted dirty words into the Congressional Record in 1921. His colleagues overwhelmingly censured him on October 24, 1921, by a vote of 293-0.*
