This volume collects a selection of contributions which has been presented at the 23rd Italian Workshop on Neural Networks, the yearly meeting of the Italian Society for Neural Networks (SIREN). The conference was held in Vietri sul Mare, Salerno, Italy during May 23-24, 2013. The annual meeting of SIREN is sponsored by International Neural Network Society (INNS), European Neural Network Society (ENNS) and IEEE Computational Intelligence Society (CIS). The book – as well as the workshop- is organized in two main components, a special session and a group of regular sessions featuring different aspects and point of views of artificial neural networks, artificial and natural intelligence, as well as psychological and cognitive theories for modeling human behaviors and human machine interactions, including Information Communication applications of compelling interest.

The Storeroom Supervisor Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: procedures related to receipt, storage, issuance and transporting of stock; supervision; job-related mathematics; record keeping and inventory control; workplace safety; and more.

Dayton Miller, American physicist in the early twentieth century, known for research on medical x-rays and musical sounds, sought evidence for the luminiferous ether, joining the worldwide debate about relativity.

Publisher description

Principesse e regine che fanno sognare, ma soprattutto donne: fragili, romantiche, innamorate, coraggiose, a volte spregiudicate. I destini, le fortune e i segreti di 101 personaggi femminili che hanno attraversato la storia dell'Europa dal

Medioevo ai giorni nostri. Un lungo racconto dove i grandi eventi lasciano il passo ai momenti privati, alle storie intime. Conosceremo la vita, i drammi, le inquietudini morali, amoroze e anche religiose di donne che spesso hanno determinato il corso della storia. Giovanissime mogli e madri, oggetto di scambio, pedine sullo scacchiere della diplomazia, queste principesse si sono ritagliate uno spazio perché dotate di personalità fuori dell'ordinario. 101 storie tristi, romantiche, tragiche, ma appassionanti come un romanzo, che riportano in primo piano figure dimenticate nelle pieghe della storia ufficiale. Marina Minelliè nata ad Ancona e vive a Falconara Marittima con il marito Stefano e due bellissime gatte, Violetta e Rosina. Dopo la laurea in Storia moderna, ha iniziato a collaborare con quotidiani e periodici ed è stata responsabile dell'ufficio stampa di associazioni ed enti pubblici. Nel gennaio del 2009, ha creato AltezzaReale.com, il primo sito italiano dedicato alla storia e all'attualità delle famiglie reali. Viaggia spesso, soprattutto in Francia. Ama il mare, gli alberi, i libri, gli animali e l'opera lirica.

Come sarebbe il nostro mondo se gli occhi potessero ascoltare e se le orecchie potessero vedere? Perché abbiamo cellule olfattive nel sangue, nel cuore e nei polmoni? Se potessimo avere percezioni sinestetiche con tutti i sensi, cambierebbe il nostro modo di valutare il mondo? E se dall'attivazione della percezione sinestetica arrivassimo a scoprire che alcune forme di percezione, per il momento riconosciute solo agli animali, come la capacità di rilevare i campi elettrici o i campi magnetici, fossero proprie anche dell'essere umano ma ancora dormienti? E ancora, perché Pitagora, Aristotele, l'Arcimboldi, Leonardo da Vinci, Schopenhauer, Goethe, Castel, Kant, Eulero, Rol, Helena Blavatsky, Luigi Veronesi, e molti altri ancora hanno dedicato gran parte delle loro riflessioni a esplorare colore e suono, sia separatamente che insieme? C'è forse qualcosa dentro di noi che brama di essere scoperto e ci spinge in tutti i modi a indagare il mondo delle percezioni, per essere trovato? Queste sono alcune domande che l'autrice si pone e alle quali cerca di dare una risposta con questo saggio dedicato alla sinestesia, una capacità sensoriale che caratterizza il 4% della popolazione, fra cui molte persone con spiccate inclinazioni artistiche.

This book covers over 24 country studies on various dimensions associated with the geographical spread of COVID-19. The chapters in the book, from geographically diversified countries, assert the need to undertake intensive regional research in order to understand the global pattern of Coronavirus focusing on infection migration, and indigenous origin that has caused tremendous global economic, social and health disaster. The book contends that understanding of peoples' behaviour is crucial towards safety measures against infection, as COVID-19 impacted to a greater extent social wellbeing of population because of lockdowns in all corners of the world. Some of the countries featured are USA, France, Italy, Hong Kong, South Korea, Canada, Australia, Pacific Islands, Russia, Taiwan, Thailand, Malaysia, Indonesia, India, South Africa, Nigeria, Mexico, Peru and Brazil.

The Sicilian Mafia, or Cosa Nostra, is one of the most intriguing criminal phenomena in the world. It is an unparalleled organised criminal grouping that over almost two centuries has been able not only to successfully permeate licit and illicit economy, politics and civil society, but also to influence and exercise authoritative power over both the underworld and the upper-world. This criminal phenomenon has been a captivating conundrum for scholars of different disciplines who have tried to explain with various paradigms the reasons behind the emergence and consolidation of the mafia. Challenging the Mafia Mystique provides an analysis of the changes the Sicilian mafia has undergone, from legitimisation to denunciation. Rino Coluccello highlights how, from the very emergence of the organised criminal groups in Sicily, a culture existed that was protective and tolerant of the mafia. He argues that the various conceptualisations of the mafia that dominated the public and scientific debate in the nineteenth and more than half of the twentieth century created a mystique, which legitimised the mafia and contributed to their success. This book will be of great interest to scholars and students of organised crime, Italian politics and Italian literature.
