Fully updated in line with the latest developments in Information Communications Technology (ICT), this course teaches students the language and skills they need to understand and work in the world of computers. A focus on terminology is combined with vocabulary and grammar practice to give students the tools to use English in areas such as describing features and functions, applying for jobs and discussing the world of ICT. The Student's Book contains 30 topic-based units covering everything from computer essentials through to programming, web design, job-hunting, and future technologies.
