Insatiability, 530-page literary gush from the pen of Polish author Stanisław Ignacy Witkiewicz aka Witkacy, protein creator par excellence - novelist, playwright, photographer, painter (the paintings included here are Witkacy's). Insatiability, written in the late 1920s, where the fire of romanticism meets the dolor of decadence, reminding me, in turn, of Berlin Alexanderplatz by Alfred Döblin (published in the same year), Robert Musil's The Man Without Qualities (written mostly during ...

Insatiability by Stanisław Ignacy Witkiewicz
Insatiability is a sardonic and misanthropic novel with nary an attractive character, a cesspool of ideas in the form of Witkiewicz's extended rants and ramblings. Actual dialogue is minimal, and usually in the form of extended philosophical discussions, intellectual ramblings which bear little on the perverse passions which form the undercurrent of the interpersonal relations.

Fiction Book Review: Insatiability by Stanislaw Ignacy---
Here is his massive major fiction in its first English translation—a two-part fantasy obsessed, as was Witkiewicz' theater work, with the Decline of the West. Written in 1927, it is highly experimental, a patchwork of straight-forward narration, stage-like dialogues, and more free-associative passages.

In the future a degenerate Western society becomes obsessed with an hallucinogenic drug, allowing the Chinese to take over Europe without any resistance
Edited and translated by Daniel Gerould and C.S. Durer, foreword by Jan Kott. Painter, playwrights, novelist, aesthetician, philosopher, and expert on drugs, Stanislaw Ignacy Witkiewicz - or Witkacy, as he called himself - remains Poland's outstanding figure in the arts between the two world wars. This volume brings together three of Witkiewicz's best works for the stage as well as a selection from his critical writing. The plays deal with the author's principal themes and obsessions: the dilemma of the artist in the twentieth century; the revolutions in science and politics; and the bankruptcy of all ideology, the decline of western civilization, and the coming of totalitarianism. Yet, far from being solemn or even serious in tone, these apocalyptic dramas are permeated with grotesque humor and characterized by a wild theatricality that particularly appeals to contemporary sensibility.

Seven of Witkiewicz's most important and representative plays, previous long since out of print.
This book contains three prolific essays by the world renown polish anthropologist Bronislaw Malinowski. First published in 1926, Magic, Science and Religion provides its readers with a seminal collection of texts exploring the concepts of magic, religion, science, rite and myth, detailing how they interlink to offer exciting and informative insights into the Trobrianders of New Guinea. A must-have for any students of anthropology and collectors of Malinowski's work, we are republishing this classic work with a new introductory biography of the author.
In the vein of the well-known drug writings of De Quincey and Baudelaire from a century earlier and those of his contemporaries Walter Benjamin and Jean Cocteau - and foreshadowing the later writings of Aldous Huxley and Carlos Castaneda on psychoactive drugs - Witkacy composed Narcotics in 1930 to discuss and document not only his own experimentation with different substances but the nature of addiction itself and the prevailing social attitude toward drugs, particularly those that were considered "acceptable." As life became increasingly mechanized, Witkacy felt that a sense of the metaphysical could only be achieved by artificial means, and like Henri Michaux, he produced an extensive oeuvre of singular visual art while under the influence of a variety of substances. Meandering, acerbic, and burlesque, rife with neologisms and expressions from German, French, English, and Russian, Witkacy dissects Polish society and the art world as well as himself via the hypocrisy surrounding drug use. Since it was first published in the 1930s, Narcotics has achieved a cult status in Poland where it is considered both a modernist classic and a paragon of Witkiewiczian madness. This edition, the first complete translation in English, includes a second appendix written later, passages from the novel Farewell to Autumn, and 34 color reproductions of a cross section of portraits to show how various substances impacted Witkacy's art.

The Polish playwright and artist Stanislaw Ignacy Witkiewicz, known as Witkacy, is now recognized as Poland's leading theatrical innovator of the interwar years and one of the outstanding creative personalities of the European avant-garde. This volume contains two of Witkacy's "tropical" plays inspired by the playwright's trip to Ceylon and Australia in 1914 with his close friend, the anthropologist Bronislaw Malinowski. Mr. Price, or Tropical Madness is a drama of heightened passion and greed among British colonists in Rangoon who seem to have stepped out of Joseph Conrad's tales of the South Seas. Metaphysics of a Two headed Calf, set in New Guinea and Australia, pits savage European imperialists against a native tribal Australia and pits savage European imperialists against a native tribal chieftain whose fetish of a great golden frog offers greater insight into the mystery of existence than the Westerners' shallow rationalism. Both plays puncture the white rulers' poses of superiority and parody their images of the tropical Other. Also included in the volume are Witkacy's Foreword to Metaphysics of a Two-Headed Calf in which the playwright defends his concept of theatre as an autonomous art with a scenic language of its own and an appendix containing a documentary itinerary of Witkacy's journey to Ceylon.

Forgotten during the Stalin years, Stanislaw Witkiewicz (1885-1939) was rediscovered in his native Poland only after the liberalization of 1956, when his works came to play a major role in freeing the arts from socialist realism. This collection, the first anthology in English, presents Witkiewicz in the full range of his creative and intellectual activities. The Witkiewicz Reader includes excerpts from three novels; four complete plays; letters to Malinowski; and selections from aesthetic, social, and philosophical essays detailing Witkiewicz's theory of Pure Form, his metaphysical system, and his apocalyptic view of the fate of civilization.
