IS-100.SCa, Introduction to the Incident Command System for Schools The Emergency Management Institute (EMI) developed the Introduction to ICS for Schools course (IS-100.SCa) in collaboration with the U.S. Department of Education.

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System.

EMI has revised the ICS 100 course to reflect lessons learned since its release in 2006. This course is NIMS compliant and uses the objectives developed collaboratively by the National Wildfire Coordinating Group, the United States Fire Administration, the United States Department of Agriculture and the Emergency Management Institute. Note: IS-100.b is an updated version of the IS-100.a course. If you have successfully completed IS-100 or IS-100.a, you may want to review the new version of the course. For credentialing purposes, the courses are equivalent. ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). The Emergency Management Institute developed its ICS courses collaboratively with: -National Wildfire Coordinating Group (NWCWG) -U.S. Department of Agriculture -United States Fire Administration's National Fire Programs Branch NIMS Compliance This course is NIMS compliant and meets the NIMS Baseline Training requirements for I-100.

CS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

Course Overview On February 28, 2003, President Bush issued Homeland Security Presidential Directive-5. HSPD-5 directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents. You can also find information about NIMS at http://www.fema.gov/nims/ This course introduces NIMS and takes approximately three hours to complete. It explains the purpose, principles, key components and benefits of NIMS. The course also contains "Planning Activity" screens giving you an opportunity to complete some planning tasks during this course. The planning activity screens are printable so that you can use them after you complete the course. What will I be able to do when I finish this course? \* Describe the key concepts and principles underlying NIMS. \* Identify the benefits of using ICS as the national incident management model. \* Describe when it is appropriate to institute an Area Command. \* Describe when it is appropriate to institute a Multiagency Coordination System. \* Describe the benefits of using a Joint Information System (JIS) for public information. \* Identify the ways in which NIMS affects preparedness. \* Describe how NIMS affects how resources are managed. \* Describe the advantages of common communication and information management systems. \* Explain how NIMS influences technology and technology systems. \* Describe the purpose of the NIMS Integration Center CEUs: 0.3

Course Overview ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). The Emergency Management Institute developed its ICS courses collaboratively with: National Wildfire Coordinating Group (NWCWG) U.S. Department of Agriculture United States Fire Administration's National Fire Programs Branch Primary Audience Persons involved with emergency planning, response or recovery efforts. NIMS Compliance This course is NIMS compliant and meets the NIMS Baseline Training requirements for I-100. Prerequisites N/A. CEUs 0.3

Student Manual for ICS 100.HE. ICS 100.HE, Introduction to the Incident Command System for Higher Education, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of ICS. It also explains the relationship between ICS and the National Incident Management System (NIMS). This course uses the same objectives and content as other ICS courses with higher education examples and exercises. Course Objectives: At the completion of this course, you should be familiar with: ICS applications in incidents at higher education institutions ICS organizational principles and elements ICS position and responsibilities ICS facilities and functions ICS planning. In addition, you will learn the steps you should take to be accountable for your actions during an incident"

In addition, you will learn the steps you should take to be accountable for your actions during an incident"

This book follows all NIMS ICS (National Incident Management System--Incident Command System) processes and principles. Beyond Initial Response was written to fill a significant gap in ICS training. Critical ICS position-specific training is difficult to get, yet responders have the responsibility to effectively operate in an ICS organization. This book removes the gap, instills confidence, knowledge and assurance that is required to be successful in an ICS command. Major focus areas: 1) the ICS Planning Process discussed in extensive detail, 2) ICS positions (13 critical positions thoroughly covered in depth), and 3) Unified Command: what it takes to be successful. This book is an invaluable reference tool that contains numerous job aids, checklists, illustrations and sample documents enabling the user to seamlessly work within the Incident Command System. In addition, it is an excellent support source for ICS training, contingency planning and response operations. Beyond Initial Response should be within arms length whether you are training or deploying.
