A tractor repair manual written for the experienced mechanic by professionals in an easy-to-use format , including numerous photos, illustrations and exploded views.

Reading is a many-faceted subject. A book on the topic may, like many, be a description of the physiological steps one takes in performing the process called reading. More commonly, it is a manual, describing the methods a teacher may use in teaching schoolage children to acquire the mechanical aspects of reading. Some, far fewer, are focused on the psychology of reading, such psychology usually emphasizing the conscious and logical approaches to learning. Still others are directed toward some particular part of reading in its socio-historical setting, as for example, freedom to read, or adult reading habits, or variation in trends in the production of materials. All books of such nature are relevant to the omnibus topic-reading. A book which would include reading in its historical, sociological, and educational setting would indeed be a major undertaking, demanding both scope and depth of knowledge from its author. Frank Jennings has written such an inclusive book, and he appropriately calls it This Is Reading.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.
