The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.

"[A] memorable portrait of a struggling young person who finds unexpected resilience and peace . . . Hilarious, heartbreaking, and poignant." -Booklist Miriam Toews welcomes her readers to the Have-a-Life housing project (better known as Half-a-Life). The welfare regulations are endless and the rate-fink neighbors won't mind their own business. Lucy Von Alstyn sends fictitious letters to her friend Alicia, pretending to be the father of Alicia's twins. When the two mothers and their five children set off on a journey to find him, facing along the way the complications of living in poverty and raising fatherless children, Lucy discovers this just may be the summer of her amazing luck.

Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

The stakes are life and death when Bela Lugosi is threatened in this "affectionate parody of the hard-boiled private-eye" genre (The New York Times). 1942: In the basement of a crumbling Los Angeles movie palace, five vampires crowd around Bela Lugosi. They should not frighten the fading horror icon, who found worldwide fame as Dracula, for these are only wannabes-diehard fans who get their kicks dressing up as bloodsuckers. But Lugosi is terrified, because he knows that one of these crackpots has been making threats against his life. Their fangs may be plastic, but their lethal intentions are all too real. For protection, Lugosi hires Hollywood private eye Toby Peters, who's splitting his time between this case and a job for his old employers: the Warner brothers. A Hollywood murder has been linked to one of the studio's star screenwriters: the brilliant novelist and violent drunk, William Faulkner. To his horror, Peters finds a connection between the two cases. To get Faulkner off the hook, he'll have to find out who wants to close the coffin lid on Dracula. With "shades of Raymond Chandler and Dashiell Hammett" Edgar Award-winning author Stuart Kaminsky's 1940s Hollywood PI is once again cracking wise and saving celebrities from psychos (The San Diego Union-Tribune).

From the USA Today Bestselling author of The Sword of the Templars and The Aztec Heresy Some secrets are too great to bear... Retired Army Ranger Lt. Col. John Holliday has reluctantly settled into his teaching position at West Point when young Israeli archaeologist Rafi Wanounou comes to him with desperate news. Holliday's niece-and Rafi's fiancé-Peggy has been kidnapped. Holliday sets out with Rafi to find the only family he has left.
