Thomas Vennum brings together thirteen Native American legends from five lacrosse playing tribes -- the Cherokee, Ho-Chunk (Winnebago), Seneca, Ojibwe, and Menominee -- to provide a glimpse into Native American life and the role "the Creator's Game" played in tribal culture.

Traces the evolution of the sport from the pre-colonial era to the founding in 2001 of a professional outdoor league as told from the perspectives of the people behind each development step, citing its Mohawk origins, efforts toward its popularization, its coaching endeavors, and the impact of women and minorities.

To understand the aboriginal roots of lacrosse, one must enter a world of spiritual belief and magic where players sewed inchworms into the innards of lacrosse balls and medicine men gazed at miniature lacrosse sticks to predict future events, where bits of bat wings were twisted into the stick's netting, and where famous players were--and are still--buried with their sticks. Here Thomas Vennum brings this world to life.

Lacrosse has been a central element of Indigenous cultures for centuries, but once non-Indigenous players entered the sport, it became a site of appropriation - then reclamation - of Indigenous identities. The Creator's Game focuses on the history of lacrosse in Indigenous communities from the 1860s to the 1990s, exploring Indigenous-non-Indigenous relations and Indigenous identity formation. While the game was being appropriated in the process of constructing a new identity for the nation-state of Canada, it was also being used by Indigenous peoples to resist residential school experiences, initiate pan-Indigenous political mobilization, and articulate Indigenous sovereignty. This engaging and innovative book provides a unique view of Indigenous self-determination and nationhood in the face of settler-colonialism.

Contemporary stories about teamwork and sportsmanship.

This book explores several cultural and historical paths intertwined in the genesis and development of sport and physical activities within colonial and postcolonial contexts. As far as youth organizations and Western-based sports are concerned, the Independencies political split needs to be reconsidered, from a cultural perspective with practices overlapping spatial, chronological and epistemological borders. When looking at the variety of practices, the colonial legacies and the ensuing migration journeys through a global perspective, there is a need to understand the diverse ways of composing and building the postcolonial sport worlds. Multiculturalism (South Africa, France, Algeria), transnational journeys (Pacific Islands), rebuilding of national identities through sporting institutions (Ireland, West Africa), racialization of the society (Rwanda, South Africa), gender control (from the West-East to the North-South gap), sportization of traditional/old games (Americas), and so on. Following the various studies shaping this book, the ambivalence of sporting and physical activities' paths comes up. It is apparent these trajectories have generated a mixed feeling of adhesion and repulsion towards Western hegemonies in postcolonial societies.

Gaylord Powless was playing lacrosse by the age of three. His father was a famous player who taught Gaylord everything he knew. But Gaylord's tremendous skill and native ancestry made him a target on and off the lacrosse floor. Gaylord learned that the best revenge was to improve his game. He became a standard for sportsmanship and skill and a pioneer in promoting equality for Canadian athletes of all ethnic backgrounds. [Fry Reading Level - 4.5]
