#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she 's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown 's new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don 't pretend to have the right answers; we stay curious and ask the right questions. We don 't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don 't avoid difficult conversations and situations; we lean into vulnerability when it 's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we 're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we 're scrambling to figure out what we have to offer that machines and AI can 't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, " One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It 's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It 's why we 're here. " Whether you 've read *Daring Greatly* and *Rising Strong* or you 're new to Brené Brown 's work, this book is for anyone who wants to step up and into brave leadership.

The essential guide to standing up for your values at work. Protect your integrity by committing to The Conscience Code. A fast-track colleague elbowing their way up the corporate ladder in your organization is faking their sales reports. Your entrepreneur boss asks you to lie to would-be investors. The team leader is a serial sexual harasser. What should you do? Nobody prepared you for this part of professional life. You face a gut-wrenching choice: “ go along to get along ” or risk your job by speaking up for what you know is right. At the Wharton School of Business, MBA students have shared all these stories, and many more, with award-winning Professor G. Richard Shell. They want to stay true to themselves but fear the consequences of speaking up—for their families, office relationships and, ultimately, their careers. They are not alone. Surveys show that more than 40% of employees report seeing ethical misconduct at work, and most fail to report it—killing office morale and allowing the wrong people to set the example. Shell created The Conscience Code to point to a better path: recognize that these conflicts are coming, learn to spot them, then follow a research-based, step-by-step approach for resolving them skillfully. By committing to the Code, you can replace regret with long-term career success as a leader of conscience. The Conscience Code: Solves a crucial problem faced by professionals everywhere: What should they do when they are asked to compromise their core values to achieve organizational goals? Teaches readers to recognize and overcome the five organizational forces that push people toward actions they later regret. Lays out a systematic, values-to-action process that people at all levels can follow to maintain their integrity while achieving true success in their lives and careers. Driven by dramatic, real-world examples from Shell ' s classroom, today ' s headlines, and classic cases of corporate wrongdoing, The Conscience Code shows how to create value-based workplaces where everyone can thrive.

Silver Medal Winner, Business and Leadership, 2012 Nautilus Book Awards Respected former CEO, professor, and speaker examines what it takes to become a values-based leader In this highly-anticipated book, Harry Kraemer argues that today's business environment demands values-based leaders who, in "doing the right thing," deliver outstanding and lasting results. The journey to becoming a values-based leader starts with self-reflection. He asks, "If you are not self-reflective, how can you know yourself? If you do not know yourself, how can you lead yourself? If you cannot lead yourself, how can you lead others?" Kraemer identifies self-reflection as the first of four principles that guide leaders to make choices that honor their values and candidly recounts how these principles helped him navigate some of the toughest challenges he faced in his career. Offers a framework for adopting the principles of values-based leadership—self-reflection, balance, true self-confidence, and genuine humility—to lead organizations effectively Based on Kraemer's popular Kellogg MBA course on values-based leadership A recognized expert in values-based leadership, Kraemer is a sought after speaker on the subject Lively and engaging, Kraemer's book comes at a critical time when true leadership in every facet of society is desperately needed.

first. Develop and define yourself as a great man, a righteous, fair, noble man, worthy of being followed. Then, once your character is right, seek to lead in business and other areas. When you find yourself ill-equipped, don't merely pretend and go through the motions of leadership. Instead, develop the confidence you need in all situations to lead well. Learn the skills you lack and understand the angles you don't. Then, lead well. Learn to delegate your work to others, thus multiplying yourself and your abilities. It is an eternal truth that men receive more pay for their ability to get others to perform, than they could possibly earn by their own efforts alone. Finally, live out your virtues and values. All that you teach, you should practice as well. By consistently ensuring that you practice what you preach, you will be one of the greatest leaders in your industry. Follow The Link To Learn More:

We live in a values-driven world. As times change, businesses must evolve. The way that leaders have run companies for generations is no longer relevant. Today -- Purpose wins over products. Values win over features. Stories win over pitches. Everyone everywhere craves fulfillment. You must share the reason why you exist and infuse it into everything you do, in order to thrive. Many leaders see the shift in the market and make an effort to adapt. Companies quickly learn that one-off workshops and off-sites are not enough. Purpose is more than a press release. Your vision and mission statements should live in practice as well as print, and permeate through every aspect of your organization. You must close the gap between the messages you declare and the experiences you deliver. How to Lead a Values-
