law. It is the only text on the market conceptualized after Dodd-Frank and its creation of the Consumer Financial Protection Bureau. The book takes a functional approach to consumer law, looking at types of transactions such as mortgages as well as kinds of laws such as disclosure rules. It examines core theoretical questions in an accessible way, revealing consumer law as a series of statutes built on the common law foundations of contract and tort. Organized into 28 class-sized assignments, the book is easy to adapt to a teacher's preferences in terms of focus and class credits. The problems provide students with the opportunity to apply statutes to realistic situations and ask them to consider the perspectives of consumers, businesses, and lawmakers. Katherine Porter is a national expert in consumer law and a co-author of Wolter Kluwer's *The Law of Debtors and Creditors*.

unpredictable tomorrow?" Corporate management is living through the Chinese curse of 'may you live in interesting times' as they contemplate their exposure both directly and indirectly to the almost unprecedented turbulence in the global markets. This short book explains how to approach management in turbulent operating conditions and what to do if your company encounters distress. It is based around turnaround specialist Anthony Holmes's 7 principles of crisis management.
