Il costo del microchip del gatto per il proprietario è abbastanza irrisorio, perché l'unico costo a dover essere sostenuto è quello dell'impianto del microchip al gatto che non è gratuito, e il prezzo è stabilito direttamente dal veterinario che lo impianta, ma comunque si aggira intorno ad un costo che va dai 20 ai 40 euro.

La profilassi preventiva è sempre consigliata tanto per la tutela del cane quanto per quella di chi vive a stretto contatto con esso, come spiegano meglio le linee guida per la vaccinazione del cane e del gatto redatte dalla Global Veterinary Community 3.. Al di là del benessere dell'animale, infatti, i rischi che vengono dal mancato rispetto di queste buone regole, sono quelli di ...

Filling a gap in the current literature, *Complications in Canine Cranial Cruciate Ligament Surgery* provides revision strategies for correcting the complications associated with surgical repair techniques for cranial cruciate ligament rupture, one of the most common causes of a hind limb lameness in dogs. Presenting step-by-step instructions for numerous surgical correction techniques, this practical guide covers articular, extra-articular and osteotomy repair techniques as well as non-surgical management, physical rehabilitation, clinical decision making, and more. The book begins with an overview of cranial cruciate ligament tear, diagnosis, and treatment goals, followed by a discussion of methods for minimizing surgical site infection and complications. Subsequent chapters describe the potential complications of a particular technique and explain how to identify, evaluate, and correct the complication. Throughout the book, hundreds of high-quality clinical photographs show the appearance of complications and demonstrate each step of the corrective procedure. This authoritative guide:

- Provides step-by-step techniques for surgical corrections of common complications
- Emphasizes surgical decision making and specific strategies for surgical correction
- Contains revision strategies for identification of intra-operative complications
- Covers evaluation and identification of post-operative complications

Features more than 400 photographs and clinical images Part of the state-of-the-art *Advances in Veterinary Surgery* series, *Complications in Canine Cranial Cruciate Ligament Surgery* is an invaluable resource for surgical residents, veterinary surgeons, and general practice veterinarians alike.

Maine Coon Cats - The Owners Guide from Kitten to Old Age - is a must-have book for any responsible owner of a Maine Coon kitten or adult cat. This owner's guide contains up-to-date information and is full of useful advice written in an easy to read (and understand) style. Just some of the subjects covered include: origins and history of the Maine Coon cat, types and colors, buying an adult cat or kitten, male or female, pros and cons, rescue, adoption, breeders, catteries, personality, socialization, spaying, neutering, litter training, bringing your kitten home, grooming, combing, bathing, cat shows, health, vaccinations, training, understanding your Maine Coon, play and toys, food and nutrition, plus old age and what to expect. Written by an expert breeder and owner herself, Rosemary Kendall, writes in a fun and entertaining way while packing the book full of useful hints and tips about these cute and adorable cats. In addition, many top breed

experts make contributions, including three special bonus chapters written by breeders who also show their Maine Coons. "As a new Maine Coon owner I wanted an A-Z guide to help me through all the stages of life. It certainly met all my expectations." - Amy Willis "Clearly a professional book which covers everything you need to know about the Maine Coon - funny and informative at the same time." - Alan Edwards

Long hailed as a seminal work of modernism in the tradition of Joyce and Kafka, and now available in a supple new English translation, Italo Svevo's charming and splendidly idiosyncratic novel conducts readers deep into one hilariously hyperactive and endlessly self-deluding mind. The mind in question belongs to Zeno Cosini, a neurotic Italian businessman who is writing his confessions at the behest of his psychiatrist. Here are Zeno's interminable attempts to quit smoking, his courtship of the beautiful yet unresponsive Ada, his unexpected—and unexpectedly happy—marriage to Ada's homely sister Augusta, and his affair with a shrill-voiced aspiring singer. Relating these misadventures with wry wit and a perspicacity at once unblinking and compassionate, Zeno's Conscience is a miracle of psychological realism.

Once Scott Roos embraced his wife Nancy's vision to adopt an older child in need, the couple embarked on a roller coaster ride of international adoption. While the process was challenging and downright discouraging at times, they persevered with strength derived from heart-sourced guidance to overcome many obstacles, doubts, and fears. The joyous outcome, Katya, provided a gift of love and inspiration to their three biological children, extended family, friends, teachers, and strangers who Katya touched along her incredible journey. From a probable dead-end in a rural Russian orphanage, to a hopeful life in an American family, Katya's Comet exposes the emotions, people, places, cultures, and logistics that the couple encountered along the way. While Katya's Comet provides useful insights and references for international adoption, in a broader sense, it motivates you to seek a selfless vision with the promise of experiencing the ripples of joy that inevitably result when you drop your proverbial stone into the enormous pond of human need. Scott's firsthand experience uniquely qualifies him to share this touching story. His down-to-earth writing style and heartfelt open sharing is positively engaging.

The author describes his twenty month ordeal in the Nazi death camp.

Drawing on decades of experience, an authority on pets and their care explains how to enhance one's relationship with a feline companion by revealing the secrets of communicating with one's cat, with advice on how to recognize the unique physical and emotional characteristics of each breed, how to select the right cat, how to read a cat's body language, and more.

"My mommy didn't carry me in her tummy, she carried me in her heart." Bailey, a 5-years old who was adopted from China. Her story is included in this book. According to People magazine, parents from all over the country seek adoption expert and Worldwide Orphans Foundation founder Dr. Jane Aronson's help "as if consulting a master detective." Angelina Jolie praised Dr. Aronson's "drive and ambition to help children dream" (Elle). Indeed, over the course of the past three

decades, Dr. Aronson has touched the lives of thousands of adopted children from around the world and in this inspiring book she presents moving first-person testimonies from parents (and a few children themselves) whose lives have been blessed by adoption. Divided into thematic sections—such as "The Decision," "The Journey," and "The Moment We Met"—each prefaced by Dr. Aronson, this book introduces readers to Claude Knobler, a writer from Los Angeles whose journey to Ethiopia to adopt his son led to an unexpectedly moving encounter with the boy's courageous birthmother; actor Mary Louise-Parker whose older adopted son's bond with her newly adopted baby daughter was deep and unwavering from the instant the two children met; and Lynn Danzker, an entrepreneur who set off alone to adopt her son, Cole, and in the process, met and married her husband. The authors of these testimonies range from doctors to filmmakers, from financial consultants to celebrities—all of them bound by their moving and transformative experience as adoptive parents.
