Full text online version at www.nyupress.org/netwars. Who will rule cyberspace? And why should people care? Recently stories have appeared in a variety of news media, from the sensational to the staid, that portray the Internet as full of pornography, pedophilia, recipes for making bombs, lewd and lawless behavior, and copyright violators. And, for politicians eager for votes, or to people who have never strolled the electronic byways, regulating the Net seems as logical and sensible as making your kids wear seat belts. Forget freedom of speech: children can read this stuff. From the point of view of those on the Net, mass-media's representation of pornography on the Internet grossly overestimates the amount that is actually available, and these stories are based on studies that are at best flawed and at worst fraudulent. To netizens, the panic over the electronic availability of bomb-making recipes and other potentially dangerous material is groundless: the same material is readily available in public libraries. Out on the Net, it seems outrageous that people who have never really experienced it are in a position to regulate it. How then, should the lines be drawn in the grey area between cyberspace and the physical world? In *net.wars*, Wendy Grossman, a journalist who has covered the Net since 1992 for major publications such as *Wired*, *The Guardian*, and *The Telegraph*, assesses the battles that will define the future of this new venue. From the Church of Scientology's raids on Net users to netizens attempts to overthrow both the Communications Decency Act and the restrictions on the export of strong encryption, *net.wars* explains the issues and the background behind the headlines. Among the issues covered are net scams, class divisions on the net, privacy issues, the Communications Decency Act, women online, pornography, hackers and the computer underground, net criminals and sociopaths, and more.

In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Lists reports dealing with popular music resources as classroom teaching materials, and will stimulate further thought among students and teachers.

Two hundred entries offer profiles of key figures; essays on such topics as cookies, content filtering, and digital libraries; and a chronology beginning with the prehistory of the Internet from 1843-1956 and concluding with the 2004 presidential campaign.

Focusing on the semiotics, poetics, and rhetoric of album covers, "Image-Music-Text" gives a serious study of this neglected art form. Working from the assumption that record sleeves may be found to represent a visual genre in its own right, the essays in this book engage in various ways with the analysis of what one might call the pictorial component of recorded music. The contributions from scholars in many different fields run the whole gamut from close readings of individual covers to more theoretical or philosophical explorations of the aesthetic nature and artistic value of album covers.

CMJ New Music Monthly, the first consumer magazine to include a bound-in CD sampler, is the leading publication for the emerging music enthusiast. NMM is a monthly magazine with interviews, reviews, and special features. Each magazine comes with a CD of 15-24 songs by well-established bands,

unsigned bands and everything in between. It is published by CMJ Network, Inc.

Now updated with two new chapters and an extraordinary collection of photographs, this second edition of Paul Friedlander's *Rock and Roll: A Social History* is a smash hit. The social force of rock and roll music leaps off the page as Paul Friedlander provides impressive insights based on hits from Johnny B. Goode to Smells Like Teen Spirit and beyond. In this musical journey, Friedlander offers the melodious strains and hard-edged riffs of Elvis, the Beatles, The Who, Dylan, Clapton, Hendrix, Motown, the San Francisco Beat, Punk, New Wave, rap, metal, 90's grunge, plus file sharing, and much more. The book is written in a refreshing, captivating style that pulls the reader in, offering no less than a complete social and cultural history of rock and roll for students and general audiences alike. Friedlander writes, "This book chronicles the first forty years of rock/pop music history. Picture the various musical styles as locations on a giant unfolding road map. As you open the map, you travel from place to place, stopping at each chapter to sample the artistry. Don't forget to dress your imagination appropriately for this trip, because each genre is affected by the societal topography and climate that surround it. Enjoy your trip. We promise it will be a good one!"

Peace Eden is a fifteen-year-old born with telekinetic and telepathic powers. While some may see this as a gift, her parents view it as a curse and attempt to "cure" her of her extraordinary powers. Feeling betrayed and unloved, Peace runs away to meet up with her grandfather, Merlin, who is also telekinetic and telepathic. But her journey takes a turn for the worse when she is chased by a local gang, gets lost in the woods, and is attacked by a drug-enhanced wolf! The adventures are just beginning for Peace Eden, who eventually learns more about her powers, discovers a secret about her father, and teams up with a

boy named Taffy to save kidnapped members of his tribe. House of Skeletons is book one of The Peace Eden Files. Eric Fields, Jr. is a pharmaceutical representative in the Louisville, Kentucky area. He has been writing stories since he was seven years old. Publisher's website: <http://sbpra.com/EricFieldsJr>

In 1991, the Israeli government introduced emergency legislation canceling the general exit permit that allowed Palestinians to enter Israel. The directive, effective for one year, has been reissued annually ever since, turning the Occupied Territories into a closed military zone. Today, Israel's permit regime for Palestinians is one of the world's most extreme and complex apparatuses for population management. Yael Berda worked as a human rights lawyer in Jerusalem and represented more than two hundred Palestinian clients trying to obtain labor permits to enter Israel from the West Bank. With *Living Emergency*, she brings readers inside the permit regime, offering a first-hand account of how the Israeli secret service, government, and military civil administration control the Palestinian population. Through interviews with Palestinian laborers and their families, conversations with Israeli clerks and officials, and research into the archives and correspondence of governmental organizations, Berda reconstructs the institutional framework of the labyrinthine permit regime, illuminating both its overarching principles and its administrative practices. In an age where terrorism, crime, and immigration are perceived as intertwined security threats, she reveals how the Israeli example informs global homeland security and border control practices, creating a living emergency for targeted populations worldwide.
