Secondly, Marantz is an audio-first legacy from Saul Marantz, that produced vacuum tube gear in the 1950's, and leading the way to solid state in the 1960's. Dirt is a story about the places where we start. From a single-wide trailer in the mountains of rural West Virginia to the halls of Yale Law School, Mary Marantz's story is one of remembering our roots while turning our faces to the sky. From growing up in that trailer, where it rained just as hard inside as out and the smell of mildew hung thick in the air, Mary has known what it is to feel broken and disqualified because of the muddy scars leaving smudged fingerprints across our lives. Generations of her family lived and logged in those hauntingly treacherous woods, risking life and limb just to barely scrape by. And yet that very struggle became the redemption song God used to write a life she never dreamed of. Mixed with warmth, wit, and the bittersweet, sometimes aching heartbreak places we go when we dig in instead of give up, *Dirt* is a story of healing. With gut-wrenching honesty and hard-won wisdom, Mary shares her story for anyone who has ever walked into the world and felt like their scars were still on display, showing that you are braver, better, and more empathetic for what you have survived. Because God does his best work in the muddy, messy, and broken--if we'll only learn to dig in.

"Trenchant and intelligent." --The New York Times As seen/heard on NPR, New Yorker Radio Hour, The New York Book Review Podcast, PBS Newshour, CNBC, and more. A New York Times Book Review Editors' Choice A New York Times Notable Book of 2019 From a rising star at The New Yorker, a deeply immersive chronicle of how the optimistic entrepreneurs of Silicon Valley set out to create a free and democratic internet--and how the cynical propagandists of the alt-right exploited that freedom to propel the extreme into the mainstream. For several years, Andrew Marantz, a New Yorker staff writer, has been embedded in two worlds. The first is the world of social-media entrepreneurs, who, acting out of naïvete and reckless ambition, upended all traditional means of receiving and transmitting information. The second is the world of the people he calls "the gate crashers"--the conspiracists, white supremacists, and nihilist trolls who have become experts at using social media to advance their corrosive agenda. Antisocial ranges broadly--from the first mass-printed books to the trending hashtags of the present; from secret gatherings of neo-Fascists to the White House press briefing room--and traces how the unthinkable becomes thinkable, and then how it becomes reality. Combining the keen narrative detail of Bill Buford's *Among the Thugs* and the sweep of George Packer's *The Unwinding*, *Antisocial* reveals how the boundaries between technology, media, and politics have been erased, resulting in a deeply broken informational landscape--the landscape in which we all now live. Marantz shows how alienated young people are led down the rabbit hole of online radicalization, and how fringe ideas spread--from anonymous corners of social media to cable TV to the President's Twitter feed. sits with the creators of social media as they start to reckon with the forces they've unleashed. Will they be able to solve the communication crisis they helped bring about, or are their interventions too little too late?
