London's street traders, entertainers, thieves and beggars which revealed that the 'two nations' of rich and poor in Victorian Britain were much closer than many people thought. By turns alarming, touching, and funny, the pages of London Labour and the London Poor exposed a previously hidden world to view. The first-hand accounts of costermongers and street-sellers, of sewer-scavenger and chimney-sweep, are intimate and detailed and provide an unprecedented insight into their day-to-day struggle for survival. Combined with Mayhew's obsessive data gathering, these stories have an immediacy that owes much to his sympathetic understanding and highly effective literary style. This new selection offers a cross-section of the original volumes and their evocative illustrations, and includes an illuminating introduction to Henry Mayhew and the genesis and influence of his work. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Produced between 1850 and 1862, *London Labour and the London Poor* is one of the most significant examples of nineteenth-century oral history. The collection teems with the minute particulars of the everyday—bits and pieces of London lives assembled into a precarious whole by the author, editor, and principal investigator, Henry Mayhew. Mayhew was interested in the social fabric of people's lives, their labour and earnings, but also their families, education, leisure time, and religious beliefs. What gives his "case studies" such immediacy is that they seem to flow unprompted and uninterrupted from the mouths of his subjects: street sellers, dock labourers, musicians, rat catchers, vagrants, chimney sweeps, thieves, and prostitutes. All are captured in this newly annotated and selected edition of Mayhew's four-volume work. Historical appendices include a contemporary map of London, reviews of *London Labour*, and other slum journalism from the period.

In this new, groundbreaking book, Rozina Visram offers an extensively researched, comprehensive study of Asians from the Indian subcontinent in Britain. Spanning four centuries, it tells the history of the Indian community in Britain from the servants, ayahs and sailors of the seventeenth century, to the students, princes, soldiers, professionals and entrepreneurs of the 19th and 20th centuries. Drawing on primary resources and recently declassified government documents, Visram examines the nature and pattern of Asian migration; official attitudes to Asian settlement; the reactions and perceptions of the British people; the responses of the Asians themselves and their social, cultural and political lives in Britain. This imaginative and detailed investigation asks what it would have been like for Asians to live in Britain, in the heart of an imperial metropolis, and documents the anti-colonial struggle by Asians and their allies in the UK. It is an invaluable contribution to our understanding of the origins of the many different communities that make up contemporary Britain.
