a more linear progression, while proving the consistency and relevance of microeconomic theory. The Seventh Edition welcomes a new co-author, Stephen Erfle of Dickinson College, who has contributed many revisions and improvements to the quantitative sections of the text, as well as provided a major addition: the use of Excel in the presentation of many of the numerical and graphical illustrations presented throughout the text. To strengthen students' ability to use Excel-a critical skill in today's job market-new Excel Applications (Excel Apps) allow readers to turn the static figures and tables in the text into dynamic illustrations.

This text exhibits four unique features: 1) it uses the theory of the firm as the unifying theme to examine the managerial decision process; 2) it fully introduces a global view into managerial
