Bessie Head ' s Maru: A Study in Race, Power and Gender

I have so struggled to put Maru (by Bessie Head, published 1971) into context that I even reread the short novel (130 pages) before I attempted to write my thoughts. My second read solidified my perception that Maru is a type of warped fairy tale, one especially with no happily ever after. Although the prince-like Maru marries the despised and hated woman of the town of Dilepe, Margaret is no Cinderella, especially since she loves someone else and considers Maru her equal, not her superior.

Born from a white mother and a black father, Bessie Head grew up in the early stages of Apartheid South Africa. In Maru she reflects upon her own experiences of love, loneliness and prejudice. Prejudice spreads as one discriminates against another and creates false images. Love contradicts loneliness, which diminishes as the plot progresses.

Read worldwide for her wisdom, authenticity, and skillful prose, South African-born Bessie Head (1937–1986) offers a moving and magical tale of an orphaned girl, Margaret Cadmore, who goes to teach in a remote village in Botswana where her own people are kept as slaves. Her presence polarizes a community that does not see her people as human, and condemns her to the lonely life of an outcast. In the love story and intrigue that follows, Head brilliantly combines a portrait of loneliness with a rich affirmation of the mystery and spirituality of life. The core of this otherworldly, rhapsodic work is a plot about racial injustice and prejudice with a lesson in how traditional intolerance may render whole sections of a society untouchable.

When Rainclouds Gather: Escaping South Africa and his troubled past, Makehaya crosses the border to Botswana, in the hope of leading a peaceful, purposeful life. In the village of Golema Mmidi he meets Gilbert, a charismatic Englishman who is trying to modernise farming methods to benefit the community. The two outsiders join forces, but their task is fraught with hazards: opposition from the corrupt chief, the pressures of tradition, and the unrelenting climate ever threaten to bring tragedy. Maru: Margaret, an orphan from a despised tribe, has lived her life under the loving protection of a missionary's wife. She has only to open her mouth to cause confusion, for her education and English accent do not fit her looks. When she accepts her first teaching post, in a remote village, Margaret is befriended by Dikeledi, sister of Maru the chief-in-waiting. Despite making influential friends, Margaret faces prejudice even from the children she teaches, and her presence causes Maru and his best friend - also Dikeledi's lover - to become sworn enemies.

Rural Botswana is the backdrop for When Rain Clouds Gather, the first novel published by one of Africa ' s leading woman writers in English, Bessie Head (1937–1986). Inspired by her own traumatic life experiences as an outcast in Apartheid South African society and as a refugee living at the Bamangwato Development Association Farm in Botswana, Head ' s tough and telling classic work is set in the poverty-stricken village of Golema Mmidi, a haven to exiles. A South African political refugee and an Englishman join forces to revolutionize the villagers ' traditional farming methods, but their task is fraught with hazards as the pressures of tradition, opposition from the local chief, and the unrelenting climate threaten to divide and devastate the fragile community. Head ' s layered, compelling story confronts the complexities of such topics as social and political change, conflict between science and traditional ways, tribalism, the role of traditional African chiefs, religion, race relations, and male–female relations.

" Bessie Head ' s short stories have an extraordinary simplicity and breadth of vision," heralded a review in The Tribune after publication of Head ' s first collection of short stories, The Collector of Treasures. Regarded today as one of Africa ' s best-known woman writers in English, Head draws on the rich oral tradition of southern Africa and masterfully applies storytelling ' s language and imagery. Carefully sequenced, the anthology gives special focus to village people from independence-era Botswana and the status, position, and plight of African women.

In this fast-paced, semi-autobiographical novel, Head exposes the complicated life of Elizabeth, whose reality is intermingled with nightmarish dreams and hallucinations. Like the author, Elizabeth was conceived out-of-wedlock; her mother was white and her father black—a union outlawed in apartheid South Africa. Elizabeth eventually leaves with her young son to live in Botswana, a country less oppressed by colonial domination, where she finds stability for herself and her son by working on an experimental farm. As readers grow to know Elizabeth, they experience the inner chaos that threatens her stability, and her constant struggle to emerge from the torment of her dreams. There she is plagued by two men, Sello and Dan, who represent complex notions of politics, sex, religion, individuality, and the blurred line between good and evil. Elizabeth ' s troubling but amazing roller-coaster ride ends in an unfettered discovery.
