A practical field reference for mining and mineral engineers that is small enough to carry into the field. With its comprehensive store of charts, graphs, tables, equations, and rules of thumb, this handbook is the essential technical reference for mobile mining professionals.

The Math Handbook has been developed for students with Dyscalculia and others who are struggling with mathematics. The book is based upon the Singapore Primary Mathematics curriculum, as well as the International Math curriculum. More than twenty topics are covered and explained step by step through visual representation to convey mathematical concepts. It has been specially developed for:

- Students who have been diagnosed with Dyscalculia; other terms may include Mathematics Learning Disability, or Mathematics Disorder
- Students who have been diagnosed with Dyslexia; as according to research more than fifty percent of those experience difficulties with mathematics. Some students may have Dyslexia and Dyscalculia as co-existing disorders
- Students diagnosed with ADHD; as they may struggle with mathematics. Some students may have ADHD and Dyscalculia as co-existing disorders.
- Students who have difficulties in learning Mathematics
- Slow learners
- Teens/Adults who have severe Math Difficulties or Dyscalculia

Students will gain more confidence in mathematics, become more independent and produce better results. This book will provide them with an opportunity to experience success and maintain a positive attitude towards math. It is suitable to be used in combination with Educational Therapy or remedial intervention in Math that students with dyscalculia or Math difficulties need. An assessment conducted by a psychologist is essential and early interventions are most effective.

- provides tests on each section to help assess your progress and reinforce learning.

For teachers, this reference book:

- is an invaluable teaching tool presented in a clear, user-friendly format
- allows you to teach English in context by using whatever is relevant and of interest to your students
- saves you preparation time
- can be used alongside any other classroom text

Sections include:

- Language
- Literature
- Analysing texts
- Visual analysis
- The writing process
- Public speaking (oral communication)

In addition there are self-tests on each major section.

This is the perfect introduction for those who have a lingering fear of maths. If you think that maths is difficult, confusing, dull or just plain scary, then *The Maths Handbook* is your ideal companion. Covering all the basics including fractions, equations, primes, squares and square roots, geometry and fractals, Dr Richard Elwes will lead you gently towards a greater understanding of this fascinating subject. Even apparently daunting concepts are explained simply, with the assistance of useful diagrams, and with a refreshing lack of jargon. So whether you're an adult or a student, whether you like Sudoku but hate doing sums, or whether you've always been daunted by numbers at work, school or in everyday life, you won't find a better way of overcoming your nervousness about numbers and learning to enjoy
