Gordon Reece quotes Showing 1-5 of 5 "And all this culture, all this art, was simply a trick. It allowed us to pretend that human beings were noble, intelligent creatures who'd left their animal past behind them long ago and had evolved into something finer, something purer; that because they could write like angels they were angels.

Shelley, darling,' Mum said. 'Don't be frightened. He just wants money. If we do everything he says, he's going to go away and leave us alone.' I didn't believe her, and I could tell from the trembling of her hands and the catch in her voice that she didn't believe it herself. When a cat gets into the mousehole, it doesn't go away leaving the mice unharmed. I knew how this story was going to end. Shelley and her mum have been bullied long enough. When they retreat to an isolated cottage in the country, they think their troubles are over, and they revel in their cosy, secure life. But one night, an intruder disturbs their peace and something inside Shelley snaps. What happens next will shatter all their certainties.

'A gripping, flawless novel . . . memorable, atmospheric and chilling' Sophie Hannah Sixteen year old Shelley and her mother move to Honeysuckle cottage in the middle of the countryside, fleeing their fears and anxieties and hoping to put behind them years of suffering at the hands of others. Shelley has endured terrible bullying from the girls who used to be her best friends, and her mother has been left reeling following a divorce from her selfish, demanding husband. For Shelley and her mother are 'mice' - timid, nervous and obliging. And for a while, in their cottage-haven, the women flourish. But one night, their fragile peace is shattered when Shelley wakes to hear a creak on the stairs. Someone has broken into the house . . . In the shocking, chilling events that follow, Shelley's world is turned on its head, as the women find themselves tested as never before. And as their lives spiral out of control, the tension reaches fever pitch, and Shelley begins to wonder: if she and her mother are not mice after all, then what are they? 'Truly remarkable . . . Mice is a book many will without question be talking about' Daily Express 'A sophisticated psychological thriller . . . gripping' Guardian

An enchanting and captivating novel about how our untold stories haunt us - and the stories we tell ourselves in order to survive. After her family suffers a tragedy, nine-year-old Alice Hart is forced to leave her idyllic seaside home. She is taken in by her grandmother, June, a flower farmer who raises Alice on the language of Australian native flowers, a way to say the things that are too hard to speak. Under the watchful eye of June and the women who run the farm, Alice settles, but grows up increasingly frustrated by how little she knows of her family's story. In her early twenties, Alice's life is thrown into upheaval again when she suffers devastating betrayal and loss. Desperate to outrun grief, Alice flees to the dramatically beautiful central Australian desert. In this otherworldly landscape Alice thinks she has found solace, until she meets a charismatic and ultimately dangerous man. Spanning two decades, set between sugar cane fields by the sea, a native Australian flower farm, and a celestial crater in the central desert, The Lost Flowers of Alice Hart follows Alice's unforgettable journey, as she learns that the most powerful story she will ever possess is her own.
