---

Grant, author of the Gone series, takes a comedic turn, launching the middle-grade Magnificent 12 series about a boy with multiple phobias forced to help save the world. After saving the life of ...

Love The Hunger Games? Action-adventure thrillers with a dystopian twist? BZRK (Berserk) by Michael Grant, New York Times best-selling author of the GONE series, ramps up the action and suspense to a whole new level of excitement. Charles and Benjamin Armstrong, conjoined twins and owners of the Armstrong Fancy Gifts Corporation, have a goal: to turn the world into their vision of utopia. No wars, no conflict, no hunger. And no free will. Opposing them is a guerrilla group of teens, code name BZRK, who are fighting to protect the right to be messed up, to be human. This is no ordinary war, though. Weapons are deployed on the nano-level. The battleground is the human brain. And there are no stalemates here: It's victory . . . or madness. BZRK unfolds with hurricane force around core themes of conspiracy and mystery, insanity and changing realities, engagement and empowerment, and the larger impact of personal choice. Which side would you choose? How far would you go to win?

Grey McLure, having turned to science after his wife was diagnosed with lung cancer, realizes it is too late to save her life and the nanotechnology he has created has given birth to a war on humanity's free will.

An epic, genre-bending, and transformative new series that reimagines World War II with female soldiers fighting on the front lines. World War II, 1942. A court decision makes women subject to the draft and eligible for service. The unproven American army is going up against the greatest fighting force ever assembled, the armed forces of Nazi Germany. Three girls sign up to fight. Rio Richlin, Frangie Marr, and Rainy Schulterman are average girls, girls with dreams and aspirations, at the start of their lives, at the start of their loves. Each has her own reasons for volunteering: Rio fights to honor her sister; Frangie needs money for her family; Rainy wants to kill Germans. For the first time they leave behind their homes and families—to go to war. These three daring young women will play their parts in the war to defeat evil and save the human race. As the fate of the world hangs in the balance, they will discover the roles that define them on the front lines. They will fight the greatest war the world has ever known. Perfect for fans of *Girl in the Blue Coat*, *Salt to the Sea*, *The Book Thief*, and *Code Name Verity*, from New York Times bestselling author Michael Grant.

In the concluding book in the BZRK trilogy, war is again being waged in the macro and the nano, and Lear's identity is finally uncovered.

It's been eight months since all the adults disappeared. Gone. They've survived hunger. They've survived lies. But the stakes keep rising, and the dystopian horror keeps building in *Plague*, Michael Grant's fourth book in the New York Times bestselling *Gone* series. A highly contagious fatal illness is spreading at an alarming rate, while sinister, predatory insects terrorize Perdido Beach. Sam, Astrid, Diana, and Caine are plagued by a growing doubt that they'll escape—or even survive—life in the FAYZ. With so much turmoil surrounding them, what desperate choices will they make when it comes to saving themselves and those they love?

Acclaimed author Michael Grant delivers a stunning follow-up to the globally bestselling *Gone* series—perfect for fans of Stephen King's suspenseful writing. It's been four years since a meteor hit Perdido Beach and everyone disappeared. Everyone, except the kids trapped in the FAYZ—an invisible dome that was created by an alien virus. Inside the FAYZ, animals began to mutate and teens developed dangerous powers. The terrifying new world was plagued with hunger, lies, and fear of the unknown. Now the dome is gone and meteors are hitting earth with an even deadlier virus. Humans will mutate into monsters and the whole world will be exposed. As some teens begin to morph into heroes, they will find that others have become dangerously out of control...and that the world is on the brink of a monstrous battle between good and evil. Praise for the *Gone* series: “Exciting, high-tension stories. I love these books.” —Stephen King “Intense, marvelously plotted, paced, and characterized.” —ALA Booklist (starred review)

Welcome back to the FAYZ! This is Book 5 in the series that Stephen King calls a 'driving, torrential narrative'.

In the beginning, there was an apple - And then there was a car crash, a horrible injury, and a hospital. But before Evening Spiker's head clears a strange boy named Solo is rushing her to her mother's research facility. There, under the best care available, Eve is left alone to heal. Just when Eve thinks she will die - not from her injuries, but from boredom—her mother gives her a special project: Create the perfect boy. Using an amazingly detailed simulation, Eve starts building a boy from the ground up. Eve is creating Adam. And he will be just perfect . . . won't he?

The mind-blowing conclusion to the *Monster* trilogy and the final installment in the *Gone* series from science fiction and fantasy master Michael Grant is perfect for superhero and Stephen King fans alike. After the fall of Perdido Beach dome, a new set of humans developed mutant powers from the rock infected with alien virus. They are the Rockborn Gang: Dekka, Shade, Cruz, Malik, Armo, and Francis. With their superpowers, they have defended the earth from other rockborn who used their powers for evil, like Dillon Poe. When another rock carrying the virus strikes New York, a new foe, Bob Markovic, rises with a horrifying and nearly unstoppable ability. Markovic's unending ambition and lack of a moral compass made him unbearable before the virus. And that was before he was a swarm of plague-ridden insects, with the power and means to take over the city—and maybe the world. As the Rockborn Gang try to defeat their latest villain, they will find themselves on morally gray grounds and have to make tough decisions if they want to save the world. In this pulse-pounding finale to the saga more than ten years in the making, Michael Grant delivers an unforgettable conclusion while asking: What does it take to be a hero?
